

## Wearry Senate Calls Third Night Session To Frame Draft Law

Washington, June 9 (AP)—Southern Democrats were beaten today in their efforts to amend the draft bill to allow enlisted men to serve in separate white or Negro units at their own request.

The Senate rejected by voice vote an amendment sponsored by Senators Russell (D-Ga.) and Maybank (D-SC).

The action came as Republican leaders planned a third straight day and night session in effort to pass the peacetime Selective Service measure and speed it to the House.

Democratic Senators Ellender (La.), McClellan (Ark.) and Eastland (Miss.) supported the Russell-Maybank proposal in speeches before the Senate vote.

The decision was another step in the drawn-out draft-Civil Rights fight. Several other moves to attach Civil Rights amendments to the Selective Service bill have been disposed of.

The defeated amendment would have given every enlisted man or draftee in the Army, Navy, Marines or Air Force the right to request service only in units made up of men of his race. If this request was granted, white officers would have been required to respect it.

In its second overtime session last night, the Senate adopted an amendment to limit the Selective Service law to two years instead of five as originally proposed.

Earlier it approved a provision to permit 25,000 aliens to serve in American armed forces here and abroad. At the end of five years the foreigners would qualify for U. S. citizenship.

## Czech Constitution Becomes Law Today

### Parliament To Pick New President Monday

Prague, June 9 (AP)—Czechoslovakia's National Front Coalition, ruled by the Communists, announced tonight Communist Premier Klement Gottwald is its only candidate to succeed Eduard Beneš as president.

The National Front chose Antonin Zapotocky, staunch Communist trades union head, as premier to succeed Gottwald.

The announcement assured Gottwald's election by acclamation in parliament Monday. He has been acting with all executive powers since Beneš resigned two days ago.

The new constitution, which Beneš refused to sign, became the law of Czechoslovakia today.

## Prowler Arrested At Reuther Home By Detroit Police

Detroit, June 19 (AP)—Police disclosed today they arrested a man shortly before last midnight at the home of Walter Reuther, where the union leader was shot April 20. Lt. Harry Laschen of the special investigation squad identified the man as Charles Kurgan, 46, an auto worker.

He said the man was taken into custody by guards stationed at the house when they found him flashing a flashlight around the windows.

Reuther, president of the CIO United Auto Workers, was fired at through a kitchen window of his home by an unknown assailant.

### RAILWAY FARES CUT

Mexico City, June 9 (AP)—The government-owned National railways announced today that first class fares will be cut 40 percent from Sept. 14 to 25 and from Nov. 29 to Jan. 21, 1949, to encourage vacation travel. Second class fares for the same periods will be cut 25 percent.

## Flood Drowns Puget Island; Dikes Weaken

Portland, Ore., June 9 (AP)—The Columbia and Fraser rivers cut deeper today into soggy dikes on the Pacific northwest's farflung front. The situation grew more critical by the hour.

A new breakthrough in the lower valley of the Columbia drowned Puget Island. Other earthen barriers along the swollen river's 100-mile stretch run from Portland to the Pacific were getting softer, saturated by 21 days of watery assault. U. S. Army engineers called their condition "very critical."

## Secrecy Surrounds Exports To Soviets

### American Trade Policies Keep Them Guessing

BY CHARLES MOLONY  
Washington, June 9 (AP)—United States policy on trade with Russia settled into a "keep 'em guessing" phase today under strange circumstances.

To the secrecy over what goods the Soviet Union will be licensed to buy here was added another puzzle: what she actually has been allowed to get since the U. S. clamped down on export licenses March 1.

Plans for Secretary of Commerce Sawyer to tell what American goods Russia has been getting recently—as a rough guide to what she can have in the future—were cancelled abruptly yesterday.

No reason was given for the cancellation, but it was learned authoritatively that Secretary of State Marshall made a personal call on Sawyer shortly before the plans were changed.

At a news conference a little later, microphones which had been set up to record for radio use an expected statement by Sawyer, were requested removed because "no statement will be read."

Speculation over why the state department might object to disclosure of buying authorizations already given Russia centered on possible fear of its effect on the current battle in Congress over funds to aid western Europe.

## Former Peninsula Legislator Found Guilty Of Frauds

Mason, Mich., June 9 (AP)—William C. Stenson, 47, former state representative from Greenland, awaited sentence in the Ingham county jail here today after being found guilty on two counts in a fraud case here last yesterday.

The former Upper Peninsula legislator was found guilty by a circuit court jury on charges of larceny by conversion and obtaining money under false pretenses. At the end of five days of trial, the jury returned a guilty verdict late yesterday after only 30 minutes of deliberation.

Judge Marvin J. Salmon delayed sentencing pending a probation report. Judge Salmon said he probably would not impose sentence for several weeks. Attorneys for Stenson indicated they might appeal.

Stenson was charged with obtaining \$7,560 from Lester A. Davidson, Lansing contractor, on a promise to obtain four war surplus bulldozers. Davidson testified he never received delivery of the bulldozers or a return of the money.

## Vandenberg Fights Cut In Foreign Aid Funds As Dangerous

Washington, June 9 (AP)—Senator Vandenberg (R-Mich.) today called the House cut in foreign aid funds a "dangerous and imprudent" decision which "cuts the enterprise."

The Senate foreign relations chairman gave these views to the Senate appropriations committee which is considering the foreign aid bill.

The administration had asked \$6,533,000,000 for a 12 month program. The House last week voted to slash the amount to \$5,980,000,000 and spread it over a 15-month period.

## Bad Axe Gives Up Central Heating

Bad Axe (AP)—Heating service to business places, churches, public buildings and some homes from a central steam plant has been discontinued here after 26 years of operation. The Detroit Edison Co. said it was losing nearly \$35,000 a year through the system.

Canadian Navy forces stood by for evacuation of critical sectors along the Fraser where the river collides with high tides coming in from the sea. The danger was greatest at Lulu Island, Veddar Canal and Pitt Meadows in British Columbia.

And far upcountry—in the Canadian headwaters of both the Columbia and the Fraser—streams were on the rise. A blazing sun continued to melt the snowpack, increasing the runoff that already has made this the region's most disastrous flood season.

Death Toll 30  
Here is the grim picture for Oregon, Washington, Idaho, Montana and British Columbia:

Thirty dead. Vanport, war housing city near Portland, yielded two more bodies yesterday. This brought the total of known dead to four in the Memorial Day disaster which wiped out the city of 18,700.

Hundreds still missing. The Red Cross reported 390 persons unaccounted for since the flooding of Vanport. The number was decreasing, however. It was 715 Monday, 545 yesterday.

Sixty thousand homeless. The number may be higher now due to break-throughs of the last few days. Nightly evacuation has been advised by Canadian authorities for 5,000 residents of Queensborough, Lulu Island suburb of New Westminster, B. C.

## Mine Owners Hand Proposal To Lewis

### Both Sides Sparring On Coal Wage Issues

BY NORMAN WALKER  
Washington, June 9 (AP)—Soft coal operators seemed likely to compromise their proposal of their own today in the touch-and-go contract talks with John L. Lewis. The mine union boss started the court-drawn bargaining sessions off Monday with a welfare fund plan the operators quickly rejected.

So it looked like the negotiators for the mine owners, after a 48-hour huddle among themselves, had readied a proposal of their own.

The negotiating conference was to resume this afternoon (1 p. m. EST). The present contract expires June 30 but Lewis has spoken encouragingly of whipping up a new pact before then to avoid a July coal strike.

One of the main issues is finding a way to pay pensions and other benefits out of the \$50,000,000-a-year welfare and retirement fund financed by the 10-cent-a-ton royalty.

In the interval, both sides are sparring and feeling out the possibilities of wage rates and other contract terms. Miners now get \$13.05 a day basic pay.

## Criticism At Home Brings On Collapse Of Turkish Cabinet

Ankara, Turkey, June 9 (AP)—The government of Premier Hasan Saka collapsed today under harsh fire from critics of its domestic economic policies.

Foreign policy played no part in the disputes which led up to the Saka cabinet's unexpected resignation early this morning. Turkey is receiving American aid under the Truman doctrine, intended to protect Greece and Turkey from Communist pressure.

President Ismet Inonu accepted the cabinet resignation but immediately asked Saka to form a new government. Informed political sources said the new cabinet probably would have new ministers of economics, labor, commerce and perhaps of agriculture. Necmeddin Sadak is expected to continue to serve as foreign minister.

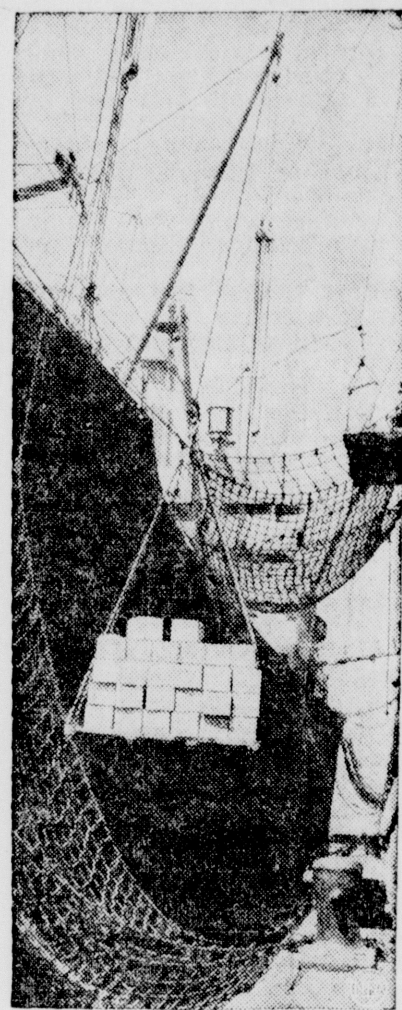

## Nash Plants Pay Tribute To Founder

Detroit, June 9 (AP)—Production lines in all Nash-Kelvinator plants will halt for two minutes at 2 p. m. tomorrow while 24,000 employees pay tribute to founder Charles W. Nash.

Nash, chairman of the board of directors, died last Sunday at the age of 84. Funeral services will be held in the church of the Resurrection at Glendale, Calif., at 11:30 a. m. tomorrow. Burial will be in Forest Lawn cemetery, Glendale.

## Southern Democrats Will Oppose Truman

### States' Righters To Pick Their Own Candidate

Jackson, Miss., June 9 (AP)—Southern states' rights Democrats will offer their own presidential candidate if the national party nominates President Truman.

The campaign committee of the states' righters announced last night it will call a convention in Birmingham, Ala., July 17, to choose their own candidate if Mr. Truman wins at Philadelphia earlier that week.

At the same time the committee said its action did not constitute either a "bolt" from the national party or formation of a third party.

Merritt Gibson of Longview, Texas, committee spokesman, said states righters will caucus at Washington or Philadelphia prior to the convention and formulate "demands" to be made upon the national convention. If these are refused, he said, states righters delegates may walk out. The specific character of the "demands" was not disclosed.

South Carolina, Alabama, Mississippi, Louisiana, Tennessee, Arkansas, and Texas were represented at the campaign committee's meeting.

## Ford Union Ballot Boxes Locked Up For Fraud Inquiry

Detroit, June 9 (AP)—Ballot boxes from a recent election in the world's biggest local union were locked up today while the CIO United Auto Workers executive board investigated fraud charges.

The board yesterday ordered the boxes impounded pending the outcome of its inquiry into the election of the UAW's 65,000-member Ford Local 600.

Gene Prato, seeking to unseat the local's two-term president Thomas Thompson, asked for the investigation. He charged that the boxes were stuffed with ballots marked for Thompson and his vice-presidential running mate, Lee Romano. Prato is running with at least indirect right wing support of UAW President Walter Reuther. Thompson is a middle-of-the-road candidate.

## Richmond, Va. Voters Elect Negro, 41, On New City Council

Richmond, Va., June 8 (AP)—Citizens of Richmond, Va., elected a 41-year-old Negro attorney to a seat on their new nine-member city council today.

Oliver W. Hill, World War II veteran, was the only independent candidate to break the ranks of the Richmond Citizens association, which elected eight of its nine candidates.

Hill edged out T. D. De Cuennois, ninth member of the association's slate, by an unofficial count of 9,095 to 8,834. De Cuennois is area director of the CIO for the eastern part of Virginia.

The Negro attorney's election marked the first time that a member of his race had been named to the city's governing body in many years.

## Russia May Copy U. S. Marshall Plan

London, June 9 (AP)—Izvestia, the Russian government's official newspaper, hinted today that Russia is ready to offer her own version of the Marshall plan to countries siding with the Soviet Union.

"The Soviet Union is now in a position to increase economic aid to those countries which maintain friendly relations with her," an Izvestia editorial said.

# Four-Week Armistice Accepted In Palestine

## President Blames Republicans For All His Troubles

BY ERNEST B. VACCARO

Aboard Truman Train Enroute to Spokane Wash., June 9 (AP)—President Truman today challenged the Republicans to keep Congress in session until price control, housing and farm bills are passed.

He made a slashing attack on the Republican Congressional leadership, mentioning the opposition party for the first time since he left Washington last Thursday on a western tour.

The attack came in an address at Butte, Mont., last night.

The president charged that Congress, under Republican domination, had wrecked price control, stymied the housing program, virtually abolished the labor department, tried to tear up the employment act of 1946, torn the budget apart, and practiced "economy in the reverse."

Congress weakened the labor

department, Mr. Truman declared, after the Republicans had said in their platform "they were going to make a strong labor department."

The Republican platform, he added, "is the platform of the Congress now."

"One of our candidates for president has said the best way to control price, was not to buy," Truman said. He did not identify the candidate, but added, "I guess he would let you starve. I don't know. I am not in that class."

"If this Congress goes away without passing an agricultural bill, without doing something about prices, then this Congress has not done anything for the country."

"They should stay there until they get those things done."

The president left immediately after his talk for Washington State. He will inspect Grand Coulee Dam today and top a number of off-the-cuff talks with a major address at Seattle tomorrow.

He will be the guest at Olympia tonight and tomorrow night of Gov. Mon C. Wallgren, frequently talked of as a candidate for the Democratic vice presidential nomination.

## Mihai Denies Spat Over Royal Wedding

Princess Anne Will Not Join Greek Church

BY L. S. CHAKALES  
Athens, June 9 (AP)—A spokesman for ex-King Mihai of Romania said today Princess Anne of Bourbon-Parma is being married here tomorrow with the full consent and agreement of her parents.

He declared that Anne's uncle, Prince Xavier of Bourbon-Parma, spoke without authority in Paris Monday when he said the Bourbon-Parma family did not approve of Anne's marriage to Mihai.

"Anne has a mother and father with whose full consent and agreement the wedding is going to take place," the spokesman said. A dispensation was sought from the Pope, but reportedly refused because of Mihai's insistence that any children of the union be brought up in his faith—the Greek Orthodox. The wedding ceremony, tomorrow noon, will be performed in that rite, by Archbishop Damaskinos.

Mihai's spokesman said today Anne "has no intentions" of being converted to the Greek Orthodox church. An earlier announcement said children born of their union would be raised in the Greek Orthodox faith.

## Socialists Pick Up 2 Seats In Canada; Liberals Still Lead

Ottawa, June 9 (AP)—Canada's Socialist party, the Cooperative Commonwealth Federation, picked up two seats in the House of Commons in by-elections yesterday at the expense of the ruling Liberal party.

The Liberals remained the dominant party, however, with 124 seats, to 66 for the Progressive Conservatives and 31 for C. C. F. The remainder of the 245 seats are scattered among other parties and Independents.

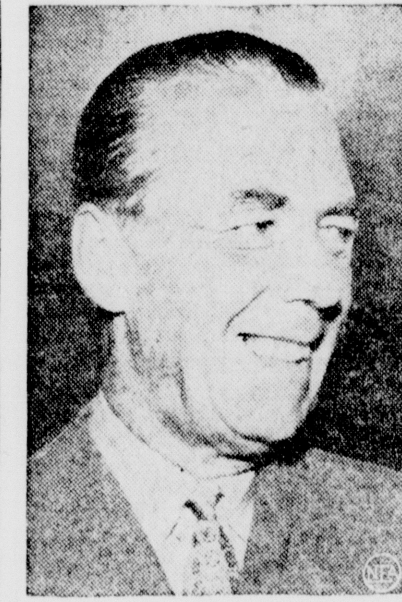

Arthur Williams, a labor organizer, won yesterday's by-election for C. C. F. in Ontario. Riding, a district surrounding the automobile manufacturing city of Oshawa, east of Toronto. In Vancouver, Centre, Rodney Young, a law student, and C. C. F. nominee, was the victor. Both Ridings had been Liberal.

## Militant Anti-Red Pro-Catholic Party Formed In Mexico

Mexico City, June 9 (AP)—Mexico's militantly anti-Communist Nation Sinarquista Union became the country's newest legal political party today. Its name is the Popular Force (Fuerza Popular) party.

The department of interior announced last night that the semi-militant, pro-Catholic movement had complied with all constitutional requirements to become a political party.

The new party, dedicated to "a Christian social order," claims a membership of 500,000. The interior department said it had a proved membership in 22 states of more than 30,000 members. Organized in 1937, Sinarquista strength blossomed among the deeply religious peasants of north-west Mexico.

JEW-ARAB UMPIRE — Count Folke Bernadotte today announced a nine-point armistice plan designed to halt shooting in the Holy Land war. The United Nations intermediary set Friday at 1 a. m. as the deadline for starting the truce. The Swedish noble, 53-year-old nephew of King Gustav, acted as intermediary between Heinrich Himmler and the allies in the closing days of World War II. He was the selection of the five great powers for the Holy Land job.

Both Arab and Jewish spokesmen said today their sides have accepted unconditionally the four-week armistice for Palestine.

Thus an uneasy peace for the war-torn land will begin at 1 a. m. EST. Friday, the date fixed by the United Nations Mediator, Count Folke Bernadotte. He will try in the four weeks to bring permanent peace between Israel and the seven Arab nations which have vowed to erase the new Jewish state. Talks may be in Istanbul or on the Island of Rhodes.

No Strings Attached  
The foreign minister of Trans-Jordan and a representative of the Arab countries in Cairo both said the Arabs accepted without strings.

The Jewish government of Israel announced its acceptance in Tel Aviv.

United Nations officials were elated but said any incident might upset the truce. Neutrals said even under the armistice there may be many instances of sniping and small-scale guerrilla warfare. The success of the armistice depended upon the will of both sides to maintain it.

Authoritative Jewish sources at Lake Success said Israel accepted without condition. Aubrey S. Eban, Israeli representative to the U. N., was understood to have received word his government had accepted.

## Shows Only Hope For Canadian Fires

Timberlands Tinder-Dry In Northern Ontario

Toronto, June 9 (AP)—Rain still appeared the only force likely to check vast bushfires still raging today in northern and northwestern Ontario, in Manitoba and in northwestern Quebec.

Some rain early this week helped fire crews but little fell in northern Ontario, where timberland, tinder-dry from the late-spring sun, erupted May 25 into smoke and flame. A soaking downpour throughout the northland is overdue.

The Chapleau area fire, one of the twin giants loose in northern Ontario, yesterday raced for a time toward the village of Sultan. But a change in the wind steered the flames away after they advanced to within 15 miles of the settlement, on the main line of the Canadian Pacific railway.

Quebec's worst fires were in Bellemore township, 15 miles from Rouyn, and in a 75-square mile section embracing four townships roughly 60 miles south of Rouyn. The Bellemore blaze, covering five square miles, burned through timber and slash and through areas blackened by fires in the past.

Both the Chapleau fire and the Mississagi blaze, northwest of the lumbering town of Blind river, Ont., were estimated at 60,000 acres each. They have been only a few miles apart for more than a week.

## White House-Backed Candidate Leads In New Mexico Voting

Albuquerque, N. M., June 9 (AP)—In a count slowed by a yard-long ballot, primary election returns early today gave Clinton P. Anderson an increasingly comfortable lead for New Mexico's Democratic nomination for U. S. senator.

State party members thus displayed apparent willingness to go along with President Truman's endorsement of the former secretary of agriculture to succeed Senator Carl A. Hatch, who is retiring.

Anderson led former Gov. J. J. Dempsey 21,329 to 13,783 in returns from 386 of 868 precincts.

The fact that Anderson and Dempsey both are former members of the lower House presented yet another facet to their battle. Another former cabinet member—Maj. Gen. Patrick J. Hurley, once-time secretary of war—will oppose the winner in the general election. He won the Republican senatorial nomination without contest.

## Packard And Briggs Idled By Walkout

Detroit, June 9 (AP)—About 6,500 workers were idled today by a walkout at the Briggs Manufacturing Co. and a resultant shutdown at the Packard Motor Car Co.

The Briggs stoppage, another in a three-day series, affected 3,200 people. Several hours later Packard sent about 2,225 employees home and closed all final assembly lines. The Briggs Conner plant, hit by the walkout, makes auto bodies for Packard.

## Liquor Commission Appointment Made

Flint Democrat Succeeds G. Mennen Williams

Lansing, June 9 (AP)—David M. Martin of Flint, former state senator and former Democratic state central committee chairman, was appointed to the State Liquor Control commission by Governor Sigler today.

Martin fills the unexpired term ending Dec. 15, 1949 of G. Mennen Williams, who resigned and has announced his candidacy for governor on the Democratic ticket.

Martin, 47, served in the House of Representatives in 1937 and 1938 and in the state senate in 1939 and 1940. For two years under former Governor Murray D. Van Wagoner he was commissioner of the State Department of Labor and Industry.

Sigler appointed Martin with the request that he "do a job for the state rather than attempt to promote yourself for some office or job."

The governor told a press conference that John R. Franco, the present Democratic state chairman, had objected to Martin's appointment on the grounds that he was "tied up" with Williams who, the governor said, "I appointed and who very soon after proceeded to build himself up for governor."

## Expensive New Ford Far From Tin Lizzie

**BY RADER WINGET**  
New York, (AP)—The new model Ford was unveiled Wednesday in a strictly private preview, and you would never know that she is the great granddaughter of old Tin Lizzie.

The car is lighter, lower, longer and more expensive than old models. Interior and exterior color is imaginative, but there is a marked reduction in the use of flashy chrome finishing inside and out that characterized so many post-war automobile models.

Private unveiling ceremonies in the Waldorf-Astoria hotel on Park avenue spread out over an area as big as eight basketball courts. It is the largest show ever staged at the Waldorf, a hostelry long accustomed to "famous firsts."

Henry Ford spent \$37,400,000 on tools to make the car, and it took

more than a year and unannounced thousands of dollars to stage the unveiling in New York. The car goes on display June 18 in showrooms of 6,500 Ford dealers.

What strikes the eye immediately is the styling. It's described as "functional," with a low silhouette which is unbroken from the blunt nose to the fenderless rear. A balance was achieved by moving the body forward five inches to cradle it between the wheels.

Mechanical improvements are stressed by Ford engineers who made scores of changes such as rubber engine mountings to reduce vibration. A 10 per cent increase in gasoline mileage in normal operation and a 25 per cent improvement with the optional engine overdrive.

The style change is emphasized by the large windshield and windows, a maximum of 20 square feet of glass. Color choice is wide and vivid in label—bayview blue metallic, birch gray, sea mist green, Arabian green, colony blue, gun metal gray metallic, Midland maroon metallic, black, fez red and Miami cream. Interior fabric also departs from tradition with a gray tweed mixture with a blue stripe, green striped broadcloth, or mohair in a green and maroon stripe and a green and gray stripe.

Prices of \$1,163 to \$1,980, F.O.B. Detroit, are 8.7 per cent higher than current models and are subject to revision in July.

For the mechanically minded, here are a few specifications of the new 1949 model with 1948 comparisons in parentheses:

Wheelbase 114 inches (114), weight 3,175 pounds (3,414), overall length 196.75 inches (198.08), maximum width 71.7 inches (72.25), height 62.75 inches (66.15), V-8 engine displacement 239 cubic inches (239), six-cylinder displacement 226 cubic inches (226), V-8 horsepower 100 (100), six horsepower 95 (90), brakes hydraulic (hydraulic), tire size 6.00 x 16 (6.00 x 16).

## May Form Another National Guard Company In U.P.

Lansing, June 9, (AP)—Possibility of organizing a new Michigan National Guard unit in the Upper Peninsula was being considered today.

The Adjutant General's office said that Maj. Gen. Ralph A. Loveland, commanding general of the Guard, and Col. Herbert F. Layle, quartermaster general, would fly to Ishpeming today to inspect a possible new Army site, an abandoned Y. M. C. A. building. They will confer with city officials.

If the building is suitable, the spokesman said, the Guard will organize a treadway (tanks and heavy equipment) bridge unit in Ishpeming.

While in the Upper Peninsula, General Loveland and Colonel Layle will visit the engineer line companies at Escanaba, Calumet and Sault Ste. Marie and headquarters and service company at Marquette.

## Boys' State To Be Held June 17-25 In East Lansing

One thousand Michigan high school boys representing more than 300 communities, will enroll in the 11th annual Wolverine Boys' State to be held June 17-25 at Michigan State College.

Dale Jackson and Pat Farrell of Escanaba Senior high school will attend Boys' state under sponsorship of the Cloverland American Legion post.

There they will receive intensive training in democratic government. They will form political parties, organize and conduct city, county and state governmental units, establish courts, pass laws, hold caucuses, conventions and elections, and carry out all the duties and functions of official city, county and state governments.

This project, founded and sponsored by the American Legion, is carried out annually, not only in Michigan, but in 44 other states as well, with a total of 25,000 boys enrolled over the nation. Here in Michigan, as elsewhere, the boys are carefully selected on the basis of scholarship and potential leadership.

The Legion has obtained the services of competent lawyers, judges, city, county and state officials, and college instructors who will comprise the faculty for the 1948 Wolverine Boys' State. On the next to the final day, Thursday, June 24, the entire group of 1,000 boys will march to the state capitol in Lansing where they take over the functions of the legislature, supreme court, and all the offices they have held at Boys' State.

## Five Wisconsin Fishermen Fined

Conservation officers last night arrested five fishermen from Wisconsin for violations of Michigan laws while fishing walleyes in the Breezy Point area. They pleaded guilty in Justice Henry Ranguette's court last night and each paid a fine of \$10 and costs of \$9.50.

Chester Smooleleski and Frank Blaszczyk of Niagara, and Oscar Dee Toler of Rt. 1, Franksville, pleaded guilty to fishing without a Michigan license. Harold Sanderson and Robert Sanderson of Green Bay pleaded guilty to a charge of non-residents using a Michigan fishing license.

At conservation headquarters here it was reported that Michigan fishermen have made complaints recently against Wisconsin residents fishing without a license, and taking more than the legal limit of 10 walleyes per person in one day.

## Section of Slide Stolen at Beach

A section of a children's slide which the city recreation department had planned to erect at the municipal bathing beach was stolen Tuesday night, it has been announced.

The recreation department, indicating that the missing section is valuable to the person who removed it from the beach area, has requested that it be returned or that the department be notified where the missing piece can be located.

The slide was transported to the beach area Tuesday and was to be erected the following day. The slide was purchased by the department late last season and had only been used a short time. Recreation officials indicated a belief that the section may have been thrown into the bay by vandals but a search of the area failed to locate it.

## HEAVY TRAVEL IS PREDICTED

**Straits Ferry Traffic Is Increasing**

If the early influx of visitors into the Great Lakes region, the record-breaking number of requests for vacation information received by the Upper Peninsula Development Bureau and the Michigan Tourist Council, and the continued increase of ferry crossings at the Straits of Mackinac are to serve as criteria, Upper Michigan hotel and resort operators can look for an unprecedented amount of travel into the region this year.

Straits crossings records — one of the most accurate barometers of tourist travel — show that 77,837 vehicles and 115,048 passengers crossed on state ferries between Mackinaw City and St. Ignace up to June 2 this year, compared with 66,242 vehicles and 99,386 passengers for the same period in 1947. Straits crossings last year were at their highest point in history.

Development Bureau officials also believe that, in addition to a larger number of summer visitors, vacationists in Upper Michigan will spend more money than ever before, but receive less in service, facilities and commodities. At the same time, they point out, operators of resorts, cafes and other establishments catering to the tourist trade will supply travelers with their needs at a smaller margin of profit.

"The 1948 travel year is perhaps the most highly competitive that we have yet seen," Bureau officials say. "Minnesota, Wisconsin, Michigan, the Smoky Mountain region, Canada, Colorado and the Black Hills country all are trying to tap the same great travel market. More money is being spent by state authorization, by travel bureaus, by regional associations, Chambers of Commerce and transportation companies to promote travel into specific areas."

## Thor Lieungh, Sr., Goes After Trout; Bages Male Coyote

Thor Lieungh, sr., 1214 First avenue south, is receiving \$15 from the State Conservation department for killing a male coyote, while fishing for trout in the Whitefish River in Alger county.

The Escanaba music dealer was fishing alone and was suddenly surprised when he turned around and saw the predatory animal 50 feet from him, about to charge.

Lieungh had his .38 calibre pistol with him and killed the animal with one shot.

The animal was full-grown, but extremely thin and ragged. Mr. Lieungh carried the carcass a fourth of a mile to his car, and took it to conservation headquarters.

## Menominee Will Go On Daylight Time

Menominee, Mich.—The city of Menominee will go on daylight saving time Sunday, June 13, at 2 a. m., it was voted last night by the council at its meetings in the city hall.

The vote was 9 to 5, with Aldermen Beaudou, Erdmann, Jenkins, Murwin and Pada dissenting.

The daylight saving time will remain in effect until Monday, September 5, at 2 a. m.

The vote for fast time followed presentation of a petition bearing 150 signatures requesting the vote. An aftermath of the vote was adoption of a measure urging the election commission to take up the matter of a ballot at the fall election on whether the people generally want daylight saving time. The vote on this was 13 to 1, with Alderman Beaudou voting against it.

## Report Recovery of Cpl. Walsh's Body

The body of Cpl. Rudolph Walsh, who was drowned May 31 when a U. S. Navy liberty launch foundered off Hampton Roads, has been recovered and will be returned to Wayne, Mich., the home of his parents, Mr. and Mrs. James Walsh.

The Walshs are former Escanaba residents, and Cpl. Walsh is the grandson of Mrs. Elizabeth Charbonneau, 1427 North 22nd street. Mrs. Charbonneau left today for Wayne to attend the funeral. Other survivors are two brothers, Phillip and David, and two sisters, Dorothy and Rita May.

Cpl. Walsh was 18 years old and had entered the U. S. Marines in 1947 after attending Wayne high school. The Walshs left Escanaba about five years ago to live in Wayne.

## GUERNSEY SALE HERE JUNE 19

**Event Will Be Staged At Fairgrounds**

About 35 females and 10 bulls will be offered for sale at the second annual Upper Peninsula Guernsey sale to be held at the Escanaba fairgrounds Saturday, June 19, beginning at 1 p. m. (Eastern Standard Time).

The sale is sponsored by the Upper Peninsula Guernsey Breeders' association and managed by the Michigan Guernsey Breeders' association. Joe Hierman, Delta county agent, is assisting in making arrangements.

"There will be several good milking cows available for breeders who wish to immediately enlarge their milking herd or to start a purebred herd with producing females," Hierman said. "Farmers from all parts of the Peninsula are invited and, on request the Michigan Guernsey Breeders' Association, 212 Abbot Building, East Lansing, Michigan will mail catalogs of selections now being made for the sale."

Sale headquarters will be at the Delta Hotel in Escanaba, where the catalogs also can be obtained.

There will be a banquet at the Delta Hotel at 6 p. m. Friday, June 18, which will be paid for by proceeds from the sale of a heifer calf to be sold at the fairgrounds the following day. The calf is being donated by Cesar Farms, New Hudson, Mich., which is owned by Charles E. Sorensen and managed by Albert Kessler.

## Military Funeral Held at Newberry For Alferd Boucha

Engadine, Mich.—Funeral services for Pfc. Alferd J. Boucha, son of Mr. and Mrs. Ferd Boucha, whose remains were returned to this country last December from Heneri Chapelle U. S. Cemetery in Belgium and was placed in the mausoleum at the Forrest Home cemetery at Newberry, were held here Sunday afternoon at 3:30 o'clock at the Town Hall with Rev. R. Garrison of the First Presbyterian church of Newberry officiating. Burial was in the Engadine cemetery.

Full military rites were conducted by members of the VFW Post of Engadine with Father Dunleavy of Sault Ste. Marie acting as chaplain.

Ex-service men, members of various veteran organizations from Newberry, Curtis and St. Ignace all in uniforms, and the Mackinac County Gold Star Mothers formed an honorary escort from the hall to the cemetery where the impressive rites took place.

During the funeral service Mrs. George Williams of Newberry sang "Sometimes We'll Understand" and "Good Night Here But Good Morning Up There."

Pall bearers were Bernal Clark, William Burnett, Crawford Traver, Frank Freeman, Phillip Collins, and Elmer Werner, all being former classmates of Alferd.

At the close of the graveside ceremony Guss Buss, Commander of the local V. F. W. Post presented the flag which covered the casket to Alferd's mother.

Pfc. Alferd J. Boucha lost his life while fighting with the American forces in Europe during the battle of the Hurtgen Forest. He was a gunner on a mortar, and served with Co. E, 8th Infantry Regiment, 4th Division. He is survived by his parents, two brothers, Clarence of Newberry and Lloyd of Engadine, three sisters, Mrs. Spencer (Erma) Pohlman of Blaney Park, Mrs. Hugh (Elsie) Fisher of Garden, and Mrs. Sig (Rita) Fandrick of Engadine. He attended the Engadine high school, graduating with the class of 1942.

Out-of-town relatives attending the funeral included Mr. and Mrs. Hugh Fisher and sons of Garden, Mr. and Mrs. Clarence Boucha and family of Newberry, Mr. and Mrs. Spencer Pohlman of Blaney Park, Mr. and Mrs. Lloyd Pixley, Lloyd Jr. and Delores Pixley of Muskegon, Mr. and Mrs. John Strauss, Mr. and Mrs. Clifford Strauss, Mr. and Mrs. Clifford Boucha all of Detroit, Mr. and Mrs. George Boucha, Mrs. Mary Holmes, Mrs. Angeline Beaudou of Naubinway, Mr. and Mrs. Harold Boucha of Manistiquette, Mr. and Mrs. Ray Klobouck of Lansing, Mr. and Mrs. T. R. Bravley of Gould City, and Mrs. Vina Rapin and family of St. Ignace.

## Raymond LaFave Named Sanitarian

Munising — Raymond LaFave, who recently completed a three-month field course in public health sanitation with the state health department, has been appointed sanitarian of the Alger-Schoolcraft health department.

Mr. and Mrs. John Williams, of Ishpeming, are the parents of a son, born June 1. Mrs. Williams taught music in Munising schools a few years ago.

Mr. and Mrs. Leonard Maki and daughter, Lynn, and George Steinhoff have returned to Detroit after visiting with relatives here for a few days.

Mr. and Mrs. Charles Allera, Miss Pauline Hendrickson and Howard Mattson, of Detroit, visited with Mr. and Mrs. Martin Hendrickson here last weekend.

Miss Donna Hurst will entertain the Deborah society at her home at 3 p. m., Thursday.

Mrs. William Reynard will be hostess to the Eden Lutheran Women's Missionary society at her home at 8 o'clock Thursday night.

Charles V. Johnson, Waino Maki and Hjalmer Salo left Wednesday for New York city to board a Scandinavian airliner for Helsinki, Finland, where they will spend three months visiting relatives and friends. Mr. Johnson has not visited his homeland in the past 45 years. Mr. Maki and Mrs. Salo have not been to Finland in the past 40 years.

## Hotel Will Open At Grand Island

Munising, Mich.—Closed since 1942 because wartime restrictions prevented continuance of its high-quality service, the Williams Hotel on Grand Island will be opened July 1 and continue in operation until next September 15, A. J. Erickson, assistant manager of the Cleveland-Cliffs Iron company's land department, announced today.

Mrs. John Lezotte, of Munising, will be manager for the 1948 season.

Arrangements now are being made for daily boat service to the island from Munising and from Powell's point, about three miles west of the city.

Upper Peninsula Development Bureau officials, learning of the announcement, expressed belief that opening of the Williams Hotel will assist greatly in taking care of 1948 travel requirements in the Marquette-Munising area.

"The Williams Hotel, inoperative since 1942, always has had a splendid record of high-quality service, excellent meals and clean and comfortable facilities," they said.

Besides the two main buildings that make up the hotel proper, several smaller cabins on the island make available accommodations for 100 to 150 persons.

## Munising Youths Go to Boys State

### Regulating Noises

THE U. S. Supreme Court in an unusual 5-4 decision Monday invalidated a Lockport, N. Y., ordinance which forbids the use of sound trucks except on permit from the chief of police. The majority opinion held that the delegation of that much authority to the chief of police was unconstitutional.

The Lockport ordinance outlawed by the supreme court sought to eliminate the nuisance of blaring loud speakers, certainly a commendable objective. Many other communities, including Escanaba, have sought to accomplish the same thing.

The Escanaba ordinance, adopted last year, is unconstitutional under the terms of the court's decision in the Lockport case. The only difference between the Escanaba ordinance and the Lockport ordinance is that the Escanaba ordinance provides for the issuance of a permit by the city manager. The Lockport ordinance delegated that authority to the chief of police. If, as the supreme court has held, the authority is too great for the chief of police, it obviously is also too great for the city manager.

Justice Douglas, who wrote the majority opinion, did not bar the way for the control of loud speakers. He did suggest, however, that such an objective can be accomplished by "narrowly drawn statutes." Presumably an ordinance that delegated no powers of exception to any individual but stipulated in the ordinance what exceptions there shall be would be sustained by the court.

The Escanaba ordinance does that to some extent by authorizing the use of loud speakers in amusement parks, recreational areas, etc. No permit from the city manager is required for the use of public address systems in such areas, or for parades, concerts, religious services, etc.

In all probability the Escanaba ordinance as now drawn would be valid merely by removing that provision in the ordinance that authorizes the city manager to issue a permit for the use of loud speakers or sound trucks.

### The Fire Engine

WE all like to watch the fire engine go by. It's like an exciting sight, with the siren screaming and the firemen hanging on for dear life and the dogs and children tearing down the street after it.

But the sight at the end of its run may not be so stimulating.

It may be a grass fire, easily put out with extinguishers. It may be some deserted shack which should have been torn down long ago. It may be minor damage to a building.

But, on the other hand, it may be a fire that puts the biggest employing concern in town out of business for months—or a fire that destroys a house that represents the savings and labor of years—or a fire that burns somebody to death.

Whatever kind of fire it is, great or small, costly or unimportant, it makes its contribution to our disgraceful record of fire waste. Maybe the damage to a building only runs into a few hundred dollars—a sum so small as to be hardly worth talking about. That was the little fire you saw. But, day after day, month after month, year after year, thousands of such fires occur. And that—when we add in the occasional conflagration that does damage running past the million mark—is why Americans carelessness with fire costs us well over half a billion a year.

The signal bell sounds in the station house and the red engine answers another call. Maybe it's fun to see it shriek by—but it's the kind of fun we pay for in lives and dollars and total destruction.

### Unemployment Insurance

IN 1946, a year of full employment, benefits paid for state unemployment compensation were 20% more than was collected for the country as a whole. Eighteen states paid out more in benefits than they received in unemployment levies and three states paid out more than twice as much.

The experience last year was a little better as the benefits paid were only 70% of collections. Several states continued to pay out more than they took in.

All this occurred, however, when the national income, employment and production were at an all time peak. If and when business recession develops, unemployment funds are bound to disappear and a stupendous burden will fall on the taxpayers.

In this regard, it is interesting to note that Wisconsin, which taxes its industries in direct proportion to experience rating, has the lowest administrative costs per covered individual of any state in the union. The Wisconsin per capita cost is 79c, with Virginia second lowest at \$1.08. The average for the nation is \$1.86. Significantly, a Wisconsin employer with a negligible labor turnover may not pay any tax at all. This system has tended to encourage labor stability and thus reduce the number of

cases applying for benefits.

Michigan has an incentive tax system, too, but it contains far less tax justice than Wisconsin.

Certainly one of the faults of the job insurance program, taken from the standpoint of the country as a whole, is that state commissions are being too liberal in administering the insurance plan, with a result that many undeserving recipients are getting paid vacations.

Unless the regulations are tightened and the abuses eliminated, the bottom of the barrel will be scraped when the first sag in business conditions develops. The general taxpayers will then have to dig deeply to foot the bill.

### Racial Issue In The Armed Forces

THE U. S. Senate Monday rejected by an overwhelming margin, 67-7, an amendment to the draft bill that would have forbidden race segregation in the armed forces. The vote does not indicate by any means the attitude of the Senate on the racial segregation issue because this was not a direct test.

In voting to eliminate the anti-segregation clause in the draft bill, the Senate acted to prevent a southern filibuster that would wreck hopes of completing action on vital legislative measures before the scheduled adjournment June 19. Also a majority of senators, including many sympathizers to civil rights of Negroes, feel that the military manpower bill is not the proper place to fight out the issue.

There is no requirement for segregation in the armed forces. The question of whether the Army, Navy and Air Force are to have units of mixed races is left entirely to the department of defense. It is wrong to demand that the armed forces solve the racial equality problem when the country itself as a whole has been unable to solve the problem. We are moving slowly perhaps but moving forward nonetheless towards advancements in civil rights. It would be dangerous to the nation's security to jeopardize military strength over the racial segregation issue at this time.

The status of world peace conditions is still too clouded to gamble with the efficiency of our military forces by getting embroiled in an internal feud over segregation issues in the ranks of the Army and Navy. That is something that had better be left to some time when the world peace outlook is brighter and when we have made greater advances in the fight for civil rights.

#### ADVICE TO GOP DELEGATES

(Cleveland Plain Dealer)

One thought above all others should be borne in mind by Republican leaders as they prepare to go to Philadelphia. It is that of all considerations the nomination of a genuinely able candidate is the most important. The outlook is for Republican victory in November. The need of the nation, and of the world, is for an American president of sufficient capacity and courage and understanding to deal wisely with the difficult situations, both domestic and foreign, which are known to be ahead.

The Republican leaders should bear still another fact in mind. It is that, on occasion, when their presidential conventions have deadlocked, they have nominated poorly qualified candidates and, as a result, have done the national government, as well as their own party, almost incalculable harm.

#### GRAY HAIR ISN'T EVEN SCIENTIFIC

(St. Louis Post-Dispatch)

Gray hair doesn't exist, says a physicist at the University of Cincinnati. We are prepared not only to believe it but to proclaim it the best of all possible conclusions. If there is any color of hair that is not to exist, let it be gray.

Let it not be, so a long shot, the color of Lilith's, whose "enchanted hair was the first gold." Nor yet Hero's, whose hair was the midnight into which she wept. And more especially at all costs, do not let it be those shades that run from the russet in which the morn is clad to the red that is as the rose of Harpocrate.

Count us as of like mind with the Cincinnati physicist. His conclusion is as artistic as it is scientific, and maybe more so. It is the kind of conclusion on the subject, and the only kind of conclusion, which, if there were such a thing as gray hairs, wouldn't give us any.

### Other Editorial Comments

From P. J. K., Los Angeles: Here is a restaurant at which mentions Rocco Petri, Maitre D'. How did this monstrosity sneak into the language; and whatever became of the good old word "headwaiter?"

Answer: We Americans have a wonderful way with words. The term maitre d'hotel is French for "house master," hence, head butler, house steward, or headwaiter. The French pronunciation is, MEH-truh doe-TELL. Now non-French-speaking Americans who work for and manage hotels and the tonier restaurants have never been able to say MEH-truh doe-TELL. I have confirmed this fact in various American cities by telephoning hotels and restaurants and asking for the MEH-truh doe-TELL. The invariable reply of the switchboard young ladies is: "Huh? Hoo-huh-want?" "I want to speak to the house steward or headwaiter." "Oh, you mean the MAY-ter dee HOE-tell?"

Since "MAY-ter dee HOE-tell" is a rather cumbersome title, even for the magnificent person who reign and collect tribute under it, maitre d'hotel is almost always shortened to "MAY-ter-Dee"; hence, Rocco Petri, Maitre D'. See how nicely it works out?

## World Events Analyzed

BY MARQUIS CHILDS

Washington.—In a presidential election year it was certain that the opposition would make capital out of President Truman's "non-political" tour of the country. The taxpayer, so the accusation goes, is paying for what is actually a campaign trip.

That is essentially true. But when the facts are looked at in relation to the whole picture of political spending, the trip is seen to be a small item of the cost that, in the final analysis, is dumped onto long-suffering John Q. Public.

To begin with, the bill for the president's tour will be comparatively small. The total cost for the president, his aides and the stenographers who do typing and mimeographing of speeches and statements, will be under \$15,000. The military and naval aides have their own travel allowances, and the cost for the secret service is paid out of treasury appropriations.

REPORTERS PAY OWN WAY  
What the public seldom realizes, seeing a 15 or 16-car presidential train, is that the newspaper and radio correspondents and the technicians who accompany them always pay their own expenses. Thus, the forty or more correspondents who make the circuit will pay approximately \$500 each in railroad fare alone.

The president will pay for his share out of the allowance of \$30,000 a year for travel and entertainment included in the White House budget. Although this allowance has been increased to \$40,000 for the coming fiscal year, it is still inadequate, being less than the amount allowed the British ambassador in Washington for those purposes.

Since the cost of the trip to the president is so small, it would have seemed far sander political judgment to charge it up to the Democratic national committee. If that had been done, the president might have said, that while, this was essentially an inspection tour, he was bending over backward in a political year and was not putting it on the White House budget.

Under those circumstances, Mr. Truman's position would have been much stronger. Now he will be constantly trying to avoid any appearance of politics and thereby he is likely to offend important politicians.

#### DEMOCRATS' TREASURY LOW

A significant fact, of course, is that the Democratic treasury is nearly empty. Mr. Truman's chances of re-election seem almost nil. Of the 50 Washington correspondents polled by Newsweek, representing a wide range of opinion and conviction, not one believed the Democrats would win in November. Hence, contributions have all but dried up.

By contrast at least, the GOP is bursting at the seams with money. In spite of the corrupt-practices act and other restraints, contributions come from those who want to exert influence with the next president. They want to get favors out of the incoming administration.

Those favors may be relatively small—a showy ambassadorship, for example. Or they may be so large as to mean a rise in the cost to the consumer of a basic commodity. A new president is sometimes put under grave embarrassment when heavy contributors come around to collect after the election.

That is why the suggestion has been seriously advanced that the cost of presidential campaigns for all parties be paid out of the federal treasury. It has been argued with considerable force that the cost to the average citizen would, in the long run, be a lot less if Uncle Sam footed the entire bill.

#### MUCH SPENT IN PRIMARIES

Republican candidates have spent phenomenal sums in their primary campaigns this year. Harold Stassen charged in the Oregon contest that Thomas E. Dewey was spending \$250,000 in that state alone. The Dewey backers poured out money like water for newspaper space, radio time and for general expenses.

It is reported in Ohio that well over \$150,000 was spent in behalf of Senator Robert A. Taft in the primary campaign in that state. Senator Taft is said to have paid part of the bill out of his own pocket. Obviously Stassen's fast and furious campaign around the country, with chartered planes and paid radio time, has cost a pretty penny. According to one report, the Stassen camp has gone into the red upward of \$100,000.

When put alongside these amounts, the cost of the president's trip seems chicken feed. Yet the fiction of a non-political tour will constantly rise to plague Mr. Truman.

writes: Why haven't you jumped on some of our columnists who use the feminine adjective naïve in speaking of men? Tell them they should use the masculine form naïf.

Answer: In English there is no gender in adjectives. Naïve (pronounced nah-EEV) has long been considered an English word, which has no more gender than any other adjective. The masculine form naïf (nah-EEF) is rarely seen in English writing.

L. B., an announcer on WCOV, Montgomery, asks: "Since network commentators like Hottelet and Severid (to name a few) pronounce length and strength as 'len' and 'stren'th,' should we announcers on WCOV follow their example?"

Answer: If I ever tune in on WCOV and hear you and your fellow announcers say "len' and 'stren'th," I shall add your names to the list of people I plan to haunt when my days on earth are done.

Are the self words a stumbling block to you? If so, Mr. Colby's leaflet, C-23, "Self Words," will help you by explaining two simple rules.

ADVENTURE—The people who hunt for Alphonse Belangue's hidden gold near Fayette, search for nuggets of silver in the Upper Peninsula's Copper Country, or break rocks in the hope of discovering jadeite or a geode filled with crystals have one thing in common.

all have the souls of adventurers. In an earlier day they would have been Forty-Niners bound for California, or tenderloin with the urge to mail for Alaskan gold.

Yet these professional (or amateur) seekers should be discouraged by this time, because some of history's most exciting finds have come through mere chance. People whose minds were on other things discovered that which intensive search had failed to reveal. Although we still contend that geological knowledge is handy if you plan to hunt a gold mine, and you should know something of archaeology if you dig for buried cities.

#### TREASURE TROVE

Lady Luck often looks over the shoulders of farmers and miners, reports the National Geographic Society. An Italian peasant digging a well in 1748 struck some ruins which turned out to be the lost city of Pompeii. A few years ago an English farmer plowed up a priceless collection of early Roman silver which had been missed by archaeologists digging in the same field.

More recently, striking English miners whiled away their "stay down" time chipping at the mine roof and discovered valuable fossil remains. This recalls the fact that the first "black diamonds" to serve industry were turned up in a door weight. The homely, black substance, which is a form of carbon but infinitely harder and purer than coal, seemed of little consequence when it was first found in Brazil in the 1800's.

Then an Amsterdam diamond cutter tried powdering a bit of it from a souvenir door weight to polish a difficult stone. It worked so well that eventually its use spread to industrial drills and other tools requiring hardness and precision.

JUST BY LUCK—In Wyoming a few years ago three men on a fishing trip caught "a big one"—a huge deposit of jade estimated to be worth millions of dollars.

On the other side of the world, it was a lucky rabbit's foot still attached, that scratched up an opal field, to the enrichment of an observant Australian native.

Some finds are just too lucky to be believed. There is the case of the West Virginia boy who, in a horse-drawn game, picked up the second largest diamond to be discovered in America. But the unpolished stone did not suggest its value and for 12 years it was tossed around the house before an authority was consulted and the worth of the find was determined.

AND NOT SO LUCKY—Sometimes what appears to be a discovery that will lead to treasure turns out to be only disappointment.

A gold rush loomed lately in Cape Province, South Africa, on reports that sheep seen there with evenly-plated, shining teeth must have browsed over gold-mine

### INTO THE PAST

Ten Years Ago

Escanaba—Roy B. Johnson, son of Councillman and Mrs. Carl B. Johnson, will receive his degree at commencement exercises at Northwestern university in Evanston, June 11, upon completing his course in dentistry.

Bark River—Mr. and Mrs. Milton Viaw are the parents of a son born June 7 at St. Francis hospital.

Gladstone—Mr. and Mrs. Fred Kinkela were guests of honor at a party in honor of their 25th wedding anniversary.

Twenty Years Ago

Escanaba—Miss Rose Bink has returned from Marquette university in Milwaukee to spend the summer vacation with her parents, Mr. and Mrs. N. A. Bink.

Escanaba—Lawrence Hartwig, student at the University of Michigan, is spending the summer here with his parents.

Escanaba—Central Cash market, operated by Anderson and Calouette, advertised the following in the June 9 issue: Veal, 25 cents a pound; soap, four and a half and 5 cents a bar; and picnic hams, 18 cents a pound.

country. The damper came when experts suggested that the plating was probably an aluminum compound acquired in the drinking water in the region.

Although there are tales of jewels lodged in ostriches' crops and in the bellies of whales and sharks, more seekers after treasure are more inclined to search old buildings. There they hope to find a secret passage or a mysterious box. In the fireplace of a house near Quebec, one man turned up an 18th-century box with charts that led to an exciting, though unsuccessful, hunt for the still lost French treasure buried before the British siege of Quebec.

#### FORTUNE'S SOLDIER

Wars have a way of leading to discoveries of hidden treasure. The English farmer who uncovered the Roman silver might never have touched the plow to the new field had it not been for the wartime food shortage.

A building demolished in the French port of Marseille during World War II yielded a rich reward. In a sailor's treasure chest, workmen found 17th-century Spanish and Portuguese coins, gold ornaments and valuable religious articles.

Yet disappointments have followed many a lucky strike. An American flyer forced down in Yucatan, Mexico, stumbled on a secret cave full of gold images and decorations. When he returned to claim his fortune he was unable to locate either cave or crashed plane in the wilderness.

OTHER WAY ROUND—In the search for treasure, for gold and diamonds, many men have lost fortunes as well as found them. There is something to be said for the stay-at-home. He may never find adventure, but seldom will he lack security.

We know a man, now old and gray, who saved through many years of employment as a butcher. Around the turn of the century when new gold fields were being opened, he went to Alaska, taking with him every penny of his savings except a little left for his wife and daughters. Within a year he was back behind the meat counter, every cent of his savings gone. Yet to this day he talks of little else than his Alaskan adventure. It was the highlight of a long lifetime and his reward was in a satisfying experience rather than gold.

### Roving Reporter

By Hal Boyle

New York, (P)—I just talked to a man fresh back from Moscow, and he scared me.

He said something I have said out loud and believed in my heart for some time—that the Russians are prepared to face another war, and we are not.

This is a rough way to put the world situation, but he says it is true. He is an experienced observer. Therefore I think his views are worth presenting, even though I have to do so anonymously.

#### No Russian Resistance

Some of them are controversial from an internal standpoint, but he isn't politically partisan himself—so here goes. He says after a year and more in Moscow:

"It is foolish for Americans to kid themselves that there is an effective resistance movement against the Russian government. There simply isn't one."

The Russians believe that there is only one more battle to win—the third World War," he said. "And then they feel they'll get all advantages they don't have now."

He was speaking of the mass-produced creature comforts such as the American civilization has produced most of and been most successful in distributing among its people—motor cars, washing machines, radios and other gadgets to relieve life's tedium.

He is very cynical, as many Americans tend to be after service abroad, and said:

"Both America and Russia are like two railroad engines headed down a one-way track toward a certain collision."

"It is a hell of a way to run a railroad—and it is a hell of a way to run a world."

This man—and he is voicing only his American beliefs feels that the one way to combat Russian expansionism is by a display of internal and external force.

"If the American people feel that the Russians are afraid of them, they are wrong," he said. "They have been told by their leaders that they won the last war, and therefore today they believe they are invincible."

He said he felt the only thing that would permanently stop the Russians from a program of conquest and assimilation was the full threat of an American fist.

"Force is the only thing they respect," he continued, "because that is what they live by."

#### Willing to Fight Again

I asked him how he felt about his own country's awareness of its world problems and responsibilities. He is a patriotic man who saw men die in the last war and took his own share of the risks.

He said: "All I can say is that the Russians have been conditioned by their propaganda to fight one more war for what they believe it will get them—and we aren't willing either to fight that war or put the money into Europe to prevent it."

This is only the opinion of one man back from Moscow who says he thinks "the basic issue left in the civilized world today is: 'human freedom.'"

He says we do have it here and they don't have it there, and that the world is a gamble between freedom and promised security. His own prejudice is toward personal freedom, and I present his views along with his prejudice.

The world, he says, will soon have to choose. It will be a momentous decision—if any historical decision can be so clear cut. Today most decisions are compromises.

## The Washington Merry-Go-Round

BY DREW PEARSON

Washington.—Here is how carefully Republican leaders in the House of Representatives watched the housing bill in order to keep it bottled up in Wolcott's banking and currency committee.

To get it out of committee, Congressman Helen Gahagan Douglas, Democrat of California, was pushing a discharge petition which would force the committee to discharge the bill. Walking over to the speaker's table last week, G. O. P. Congressman Les Arends of Illinois checked over the list of housing-bill signers, then whispered to G. O. P. Leader Halleck of Indiana.

Together they beckoned to G. O. P. Congressman Boggs of Delaware, asked why he had signed the housing petition. Boggs protested that he hadn't signed. Arends had made a mistake. It was Boggs of Louisiana, a Democrat, who had signed.

All of which illustrates how the Republican leadership gave categorical orders to Republican congressmen not to be for housing—despite the fact that one of the pillars of the party, Senator Taft, pushed the bill through the Senate.

### TRUMAN MERRY-GO-ROUND

Secret service has placed a double guard around the Truman train at each stop because of White House troubles with the railroad unions. They recall that during the 1920 rail strike, Woodrow Wilson was subjected to much embarrassment during a speaking tour when striking switchmen uncoupled his private car, letting the rest of the train pull out of the station without him. . . . The president has with him a draft of the Democratic nation committee's new \$2.50 political handbook, "The Power of the People" by Senator McGrath. . . . The 30 Truman "extemporaneous" speeches including a kicker line for local audiences were largely written in advance. Truman studies them between stops, sometimes alters them when he gets on his feet. . . . At Gary, Indiana, for instance, Truman's attack on Congress was inspired by Democratic Congressman Ray Madden of Indiana. Before introducing Truman to his huge labor audience, Madden told him: "This crowd is for you, but don't pull any punches—and if you've got anything to say about Congress, lay it on the line." As a result, Truman, who had planned to make a short five-minute talk in Gary, spoke for 20 minutes in a ripping attack on Congress for doing nothing about the cost of living. . . . Just before he left Washington, the president installed four old-fashioned rocking chairs on his new balcony. They are located in the southwest corner of the balcony behind a shady elm tree where they can't be seen from the street.

### NO ARMY-NAVY UNIFICATION

The greatest argument in favor of Army-Navy unification was pooling of supplies. It was estimated that the taxpayers could be saved a lot of money if the Army and Navy bought their supplies together instead of bidding against each other.

However, Secretary of Defense Forrestal, supposedly a businessman, hasn't even accomplished this—despite the fact that he knew from recent war experiences how great this waste was.

If the armed services kept a single, Sears Roebuck type of catalogue of their supplies, it would bring about great saving.

Back when he was still secretary of the Navy, Forrestal, himself, directed the Navy to prepare a single system of cataloging. But he later ignored his own directive, and has done nothing more about it since taking over as secretary of defense.

The waste that has resulted from this lack of uniformity is astronomical. For example, \$30,000,000 worth of tubes were purchased by the Army in 1942—enough to last for ten years. Yet the following week another order was placed for \$60,000,000 worth of tubes—because the Army had to stock different types. As a result, Army warehouses overflowed with tubes that varied only slightly from each other, maybe no more than a prong spaced differently.

Yet, even this overflow was multiplied a hundredfold by duplication of stock numbers. Normally, the manufacturers' number would be assigned to an article; so if 20 different manufacturers produced the same article, 20 different numbers would be assigned and scattered through a dozen unrelated catalogues.

The Army Signal Corps discovered this duplication, and assigned 400 technical personnel to straighten out the records. After a three-month analysis, they were able to eliminate 63,000 duplicate items out of 220,000—a reduction of almost 30 per cent.

### RED TAPE

It was also found that 8,500 different types of bearings were handled by the Navy during the war, yet the Navy had 264,000 different types in its records. In other words the assignment of duplicate numbers had magnified the paper work 30 times.

Even more serious, many installations were forced to shut down temporarily for lack of spare parts, although the parts were discovered later under different numbers. This happened to one of the powerful radar sets in Panama during the spring of 1942 when the canal was in constant danger of Jap attack. To the horror of the Army, it discovered that the replacement part was not in stock. A hurried telephone call was put through to Washington, and the missing part was ordered flown to Panama at once.

Meanwhile, the stock officer, searching through his warehouses, discovered eight bins full of the identical article he had sent to Washington for. But they were all stocked under different numbers.

## PHIL RICH WILL FISH IN ONTARIO

Midland News Publisher To Write For Press

Editor's Note—Phil Rich, publisher of the Midland Daily News, is on a tour of Ontario, Canada, along with other newspapermen as guests of the Ontario government. In connection with his trip, Rich is writing a series of articles.

By PHIL RICH  
North of Lake Superior—We're off for the "quick look." Another glimpse at Ontario—a province twice as large as Texas.

This time the trip will be chiefly north of Lake Superior—a region which I have never visited.

The country is vast. That's why it is 4,000 miles from Toronto to Western Ontario and back to Toronto. This is the area we'll cover in 10 or 12 days.

"It comes to my mind that you might join our tour," wrote Tom McCall, deputy minister of the Travel and Publicity Bureau at Toronto some days back. "All travel is at night," he continued, "on a private car in which each man will have his own bedroom, and with a private diner attached. . . . There are no state dinners. . . . This sounds deluxe. But since the Ontario government is our host, why should we complain?"

The Dominion and many of its provinces are awakened to the fact that the greatest single resource they have to promote is the tourist business. Ontario is perhaps the most alert of all. They have been after it for some years. This year the campaign has been intensified. And they have something to sell over there. The great north country has scarcely been touched from a hunting and fishing standpoint. Canadians are becoming wise on game and fish propagation and protection.

To give herewith a general idea of where we are going on this trip, one can take a map and locate North Bay (north of Toronto or east of the Soo). From here we swing along the north shore of Lake Superior, through Biscotasing on to Fort William, then Rainy River, Lake-of-the-Woods then go north and return on an arc route that takes us through Hearst and back to North Bay.

Among those listed for the tour are: Terry Walton, Chicago Times; George Robey, Columbus Citizen; Dave Roberts, Cincinnati Enquirer; Jim Hurley, New York Mirror; Don Gillies, Detroit Times; Joe Brooks, Dowson Union News; Jim Miller, New York State. Then from Ontario: Ernie Calvert, president, Northern Outfitters Association; Col. E. C. Reynolds, president, Ontario Northland Railway; Cal. W. W. Johnson, general tourist agent, Ontario Northland Railway; Clint Melville and Ogden Hershaw, Department of Travel and Publicity.

Sunday night they loaded us all aboard the train and we're off—typewriters and all. If we see and do things of interest back home, I'll give you "a buzz."

IS THIS WHAT MADE THE '90s GAY?—This high-wheel bike, resurrected for the Newport, R. I., "Gay Ninety" celebration, is probably what made the '90s gay. It must have been hilarious to watch people falling off. Mr. and Mrs. Gerry King try out the infernal machine.

## DAV Honors Local Auxiliary At Its State Convention

The Michigan Department, Disabled American Veterans, meeting in state convention Saturday at Alpena, cited Escanaba Auxiliary No. 24 for its junior activities.

The citation certificate was received by Mrs. Nettie Seidl, a past commander of the Auxiliary, who attended the state meeting.

Most of the state positions in the DAV went to Upper Peninsula members in the annual election of officers. Lionel Sleeman of Iron River was elected state commander. Mrs. Cassie Burgess of Iron

## Douglas 'Big Gun' On Pioneer Train

The 200-pound brass cannon Senator Stephen A. Douglas, of Lincoln-Douglas debate fame, used during political speaking tours, is the largest exhibit the museum car the Chicago and North Western Railway's Centennial Train is bringing here on June 15.

Before the Civil War, Douglas used the North Western in traveling to communities where he was scheduled to speak. History records only one time when he actually fired the cannon to emphasize a point.

Douglas was the main speaker at a celebration marking the formation of the Chicago & Milwaukee Railway Co. through consolidation of two other railroads in 1863. This railroad now is part of the North Western.

Practically everyone of importance from Chicago and Milwaukee was present to hear Douglas predict a great future for the Northwest. He declared that Chicago was destined to become the greatest city on the continent and Milwaukee was to be a good second.

The first railway service between Chicago and Milwaukee began June 9, 1855, being supplied by two railroads which ran to the Wisconsin-Illinois line. Suburban service was started 17 months later. For a number of years passengers and freight were transferred from one railroad to the other at the state line.

A scientific "color eye" said to be accurate within one-half of 1 per cent will fill a long-felt need in paint and textile industries where accurate color matching has been dependent on skillful use of the human eye.

Mountain was chosen Auxiliary junior vice commander, and Mrs. Ann Heiden of Menominee, treasurer. Flint was chosen as the convention city in 1949.

## 4 Traffic Lanes Are Marked Off On Ludington Street

Chief of Police M. E. Ettenhofer this morning called the attention of local motorists to the four traffic lanes marked on Ludington street and urged drivers to utilize the lanes properly to regulate the flow of traffic on the city's main business street.

Two lanes of traffic are provided in each direction and the police chief urged that motorists use the lane closest to the center for through traffic at a speed of not to exceed 25 miles per hour. The lane closest to the curb should be utilized for slower traffic and for cars planning to park at the curb or for right hand turns at the intersections.

Motorists planning to make left hand turns at the intersections must use the lane closest to the center of the street.

Ettenhofer urged motorists to avoid straddling the center line.

## Egbert, Who Died 62,000 Years Ago, Brought To U. S.

New York, (AP)—"Egbert," who met a numtinely death about 62,000 years ago in what now is Lebanon, is in New York City.

During his stay, he may provide information on man's development.

"Egbert," the skeleton of a boy about eight years old, arrived aboard the Marine Corp. along with 140 cases of other specimens dug up by archeologists at Ksar-Akhl, in the Antelias Valley north of Beirut.

He was accompanied by the Rev. Joseph Murphy of Lexington, Mass., a member of the Boston College-Fordham University to Lebanon which has been excavating at Ksar-Akhl since 1937.

"Egbert" was named by the Rev. J. Franklin Ewing of Fordham, head of the expedition. He was found in 1933, 45 feet deep in the excavation of a natural rock shelter.

Father Murphy said scientists hope the skeleton will give them information about mankind's physical development from Homo Neander-Thalis—with his sloping forehead and jutting brows—to Homo Sapiens, modern man.

The skeleton is embedded in a concrete-like mixture of clay, rock and other rubble. It will be shipped to Harvard university.

When the scientists have finished their studies, "Egbert" will go back to Lebanon, to stay in the national museum there.

## Technical School Air Force Recruits Are Being Accepted

The United States Air Force announced today that all men who apply for technical school set up under the aviation career plan of the Air Force will be accepted for enlistment in the U. S. Air Force upon their receipt of the letter from the commanding general of the air training command regardless of the present quotas for Air Force enlistments.

All men interested in enlisting in the Air Force are urged to contact T. Sgt. Spencer Mathison at the U. S. Army and U. S. Air Force recruiting station in Escanaba without delay for further information on the aviation career plan.

## Library Adventure

By Arnold Mulder

Among aspiring writers—the number is legion—the great game of trying to break into print is never-ending. If reports in the professional publications of writers are to be believed, there are almost as many "systems" in attempting to achieve publication as there are in picking a sure winner at the races or beating the bank at roulette.

An amusing attempt, and one that was at least original, is described by a contributor to the "Letters to the Editor" column of a popular magazine. The contributor represents it as the scheme of a friend; in all probability she is telling her own experience under such a cover.

It was in the days when H. L. Mencken and George Jean Nathan were still making magazine history with the early "American Mercury." This young would-be writer was just out of college. Fresh from a college journalism class, she was eager to "make" the "Mercury," which was quite an achievement in the days of Mencken. But she had no name, and she believed that her deathless story would not receive the attention it deserved if it was sent in the usual way. So she decided to win attention for it. If she could only get it read by a top-liner editor she felt sure that it would ring the editorial bell. Her confidence in her own literary product was at least strong.

For a week before she finally mailed the manuscript to the magazine she sent, daily, an unsigned card to the editors with the single line on it: "It is coming." The idea was of course to whet the editorial appetite for the story, much in the way in which advertisers of a new powdered soap will sometimes win public attention for their products by such anonymous ads.

Finally the story was sent in, with the simple covering announcement that what had been in the process of coming was here at last. Then she started on the long process of sweating it out,

waiting for the acceptance and the check that she felt sure were coming in due time.

But it took longer than she had expected. Young writers sometimes are so excited by their literary efforts that they feel acceptance should come by telegraph 15 minutes after the masterpiece had reached the editorial office. In this case there was a time lag of several weeks—which fact finally convinced the author that acceptance was certain. Writers are like that; speed or delay, both are interpreted as favorable—until the rejection slip arrives.

In this case the rejection was quite as original as the approach. There was in it the flavor of Mencken humor. One day the young author found in her mail box a very large postcard; in fact, it was a super-postcard. On it was written in very large letters the single unsigned line: "It is coming—back." Nothing else; not even an identification of the origin of the card. But of course the author understood.

Next day the familiar fat envelope arrived, containing the manuscript and the usual rejection slip.

The scheme did not work. The letter telling of the incident did not state if this particular author ever got by the editors. It is doubtful if schemes of that sort ever work. It seems that the only way to break into print is to write something that some editor sees a profit in printing, whether it is worth publishing or not. All "systems" are probably as worthless as those worked out to make a killing at the races.

## Trenary

**Anniversary Party Given**  
Trenary, Mich.—Mr. and Mrs. V. O. Vrooman were pleasantly surprised Thursday evening when a group of their friends and neighbors gathered at their farm home, south of town to help them celebrate their 35th wedding anniversary.

A social evening was spent with pot luck lunch being served by the ladies.

Mr. and Mrs. Vrooman were presented with an electric toaster and a purse of silver.

**Memorial Day Services**  
The Memorial Day parade and service was very largely attended by both local and out of town people.

The parade began at the town hall, consisting of the color guards, chaplains car, firing squad, American Legion Post, Auxiliary, Trenary 4-H club and the Lions club. They marched through town to the cemetery, where the services were held at the grave of Pvt. Donald Maki, the first World War II dead to be returned from Europe for reburial.

The invocation was given by Rev. Fr. A. Schulek and the hymn, "Nearer My God To Thee" was sung by the crowd. The "Gettysburg Address" was given by Violet Latvala, an aunt of the deceased soldier after which the wreaths presented by the American Legion Post 511, Auxiliary, and Lions Club were placed on the soldiers grave.

The Memorial Day address was given by Rev. Fr. A. Schulek, followed by the group singing "Rock of Ages." To end the program, taps were played by Donald Sepanen and the crowd pledged allegiance to the American flag.

## Parisian Fishes In Local Waters

Escanaba's walleye fishing reputation is spreading to Europe.

Ernest Friedmann, gem buyer and sportsman of Paris, France, caught eight walleyes off the mouth of the Ford River last Sunday. It was his second fishing trip in local waters. Last Wednesday Friedmann caught seven walleyes in the same area.

Friedmann and a companion from New York City were guided by Leo Legacy, of Marinette, well known fishing and hunting guide. Scorning American fishing tackle, which he called clumsy, Friedmann used a four pound test line and a French model spinning rod. He used a small French spinner with treble hook without bait, a device that proved more effective than the conventional June bug spinner and worms or Flatfish artificial bait.

Friedmann reported that he had heard of Escanaba's great walleye fishing when he was in New York. He expressed delight at the lovely scenery of the Upper Peninsula and said that he will come to Northern Michigan to view the scenery next winter.

## Woman Learns Law To Assist Blind Husband

BY EDWARD S. KITCH

(A) Newsfeatures

Chicago—Mr. and Mrs. Allen Stouder are studying to become lawyers.

Both, 23, are leading their classes at the John Marshall Law School even though Allan is blind. He majored in chemistry at the University of Chicago, before he lost his sight, and met and married Marian. She is from Randolph, Vermont.

Then Allan decided he'd like to study law. He got a daytime job in an industrial laboratory and attended law school at night.

In May, 1946, a batch of chemicals Allan was mixing exploded in his face. He was severely burned. Doctors said it is improbable Allan's sight can be restored.

Marian now acts as his eyes and reads all of his text material to him. She attends classes with him. They discuss legal cases together. They take examinations separately. A reader asks Allan questions. He writes the answers on a typewriter.

Both are learning Braille. They play chess on a board which she has fixed with adhesive tape so he can tell the squares.

Receiving workman's compensation, Allan and Marian are assisted financially by their folks.

Marian escorts her husband. "Once in a while," she says, "we have trouble getting through revolving doors."

Allan believes Marian's interest in law has helped his success as a law student.

They expect to be graduated together in June, 1949.

## Gen. Moran Named Adjutant General By Governor Sigler

Lansing (P)—Col. George C. Moran was appointed by Governor Sigler Tuesday to be adjutant general of Michigan.

Col. Moran, who has been acting adjutant general since the retirement last winter of Brigadier General Leroy Pearson, was promoted to the rank of Brigadier General.

At the same time Sigler promoted Brigadier General Ralph A. Loveland, Commanding General of the Michigan National Guard, to be a Major General.

In the event new national draft legislation is enacted, Sigler said he would designate Col. Glenn B. Arnold as state selective service director. Col. Arnold now is acting state director of the office of selective service records and head

## Chicago Publishers Make Final Offer In Printers Strike

Chicago (A)—Chicago newspaper publishers have agreed to meet again with Woodruff Randolph, president of the AFL International Typographical Union, in the printers' strike.

Local 16 of the union requested the conference. No date was set immediately for the meeting.

Chicago Newspaper Publishers Association had set yesterday as the deadline for Local 16 to submit the publishers' "final complete contract proposal" to a membership vote. The union struck Nov. 14 against five Chicago dailies.

John Pilch, Local 16 president, said the proposal had been rejected "almost unanimously" at a union meeting May 23.

The CNPA offer included a nine dollar weekly pay raise which would establish a \$94.50 scale for a 36¼-hour week for day work, \$100 for night shifts and for a 30-hour week on the early morning shift.

More than 50 cities in the United States are now carrying on anti-noise campaigns.

## Medical Specialist Courses Now Open To Army Recruits

Medical specialist courses are now available to qualified young men enlisting for three years in the Army Medical Department. T/Sgt. Spencer C. Mathison, commanding the Escanaba Army and Air Force Recruiting Station, announced today.

Schools begin instruction in July on a variety of specialties including medical technician, medical laboratory procedures, pharmacy procedures, surgical technician, X-Ray procedures, medical equipment maintenance and meat and dairy hygiene.

The same courses, with the exception of meat and dairy hygiene also will be conducted in August.

In addition, high school graduates enlisting in the Army can sign up for one of three other Medical Schools leading to graduation as medical technicians, medical aidmen and surgical technicians after eight weeks' instruction.

Young men interested in the latter three schools may apply for one of them before enlisting. Once they qualify and are accepted, they are guaranteed attendance at the school they select after a short basic training period.

Sgt. Mathison urges qualified young men to apply at once at the Army and Air Force Recruiting station, 1215 Ludington street.

## Monoxide Poisoning Blamed In Death Of Honeymoon Couple

Seaside Heights, N. J. (A)—Police listed carbon monoxide poisoning as the accidental cause of the death of William H. Treiz and his bride, found clasped in each others' arms several hours after they had started their honeymoon in a seashore cabin.

Ocean County Detective Chief George Gibson said police were checking a refrigerator for possible leaks but he said he had no further information on the cause of the poisoning.

He said the autopsy indicated Treiz, a 37-year-old Philadelphia machinist, and his bride had died on their wedding night at the beginning of what was to have been a week-long honeymoon.

The 31-year-old bride was found lying nude in the arms of her pajama-clad husband. The discovery was made by the owner of the two room cabin. He said he broke in Sunday night when he became alarmed after not seeing the couple since their arrival on Saturday.

## SEAGULLS ARE GETTING TROUT

Fish Become Stranded In Escanaba River

Seagulls are snatching live trout from the shallow waters of the Escanaba river between Cornell and the Boney Falls dam.

Cornell residents report that low water conditions have caused the fish to congregate in pools, where they are easy victims of marauding seagulls. Some of the fish also have become stranded in dried-up areas along the river bank.

The Michigan Conservation department planted 1,600 legal size trout in the Boney Falls area early this spring. Plans were being made to plant a similar number tomorrow, but the project likely will be abandoned because of the unfavorable water level.

Scarcity of rainfall in the headwaters region of the Escanaba river in Marquette county has caused a drastic drop in the water level the last few days.

## Twin Engine Plane Drops At Ironwood; Only One Injured

Ironwood, Mich., June 9. (P)—One man was injured slightly but three companions escaped unhurt when their twin-engine plane crashed last night just outside the city.

State police identified the pilot as Earl C. Albott, 26, of Flint, Mich., and listed his passengers as Robert L. Landacre, 26, Ralph Boyd, 29, and Zane Martin, 21, all of Decatur, Ill.

Officers did not know which of the party was injured. It was believed the plane was on a flight from Decatur and ran into trouble when one of its engines failed.

## WHISKY THIEF JAILED

## Rep. John Bennett Is Trustee Of \$3,000,000 Wm. Bonifas Trust Fund

Rep. John B. Bennett of Ontonagon, Republican congressman of the 12th district, and a nephew of the late William Bonifas of Escanaba, is the sole trustee of a \$3,000,000 fund which will be distributed to 11 beneficiaries or their legal heirs.

The distribution of the fund is to be made now following the death May 25 of Mrs. Catherine Bonifas, widow of William Bonifas. The will establishing the trust fund was made in 1936, and Mr. Bonifas, wealthy Upper Peninsula lumberman, died the same year.

Named trustees of the fund were the widow Isaac Bonifas, a brother, Mary E. Hogan, secretary to William Bonifas; and John B. Bennett. Of the four, Rep. Bennett is now the only surviving member of the fund trustees.

Isaac Bonifas and Mary Hogan were the two principal beneficiaries of the estate of William Bonifas. Both are dead and the 34½ per cent of the estate each was to receive will go to their legal heirs, presumably as named in their wills.

This will mean the distribution to the legal heirs of Mary Hogan about \$1,000,000, and to the legal heirs of Isaac Bonifas about \$1,000,000 before the payment of inheritance taxes.

At the last inventory, Dec. 31, 1947, the value of the undistributed estate of William Bonifas was \$3,422,996.

Principal heirs of Mary Hogan reside in Green Bay, and those of Isaac Bonifas in the Garden and Ensign communities in Delta county.

The approximately \$1,000,000 of the estate of William Bonifas is to be distributed, under the terms of his will, in percentages to the following beneficiaries:

James and Joan Bonifas of Milwaukee, children of the late Harold Bonifas; Josephine Bonifas Neprude and Margaret Bonifas Klesges, whose addresses are not known although one is believed to live in California; Cathryn Shire, Ironwood; Mary Bonifas Bennett, Marquette; and Edward L. Neman Jr., Land O' Lakes, Wis.

Cecelia Bonifas Jerow is the third of the 11 beneficiaries deceased, and her share in the William Bonifas estate will go to her legal heirs.

Rep. Bennett, nephew of the late William Bonifas, was born in Garden in Delta county on Jan. 10, 1904. He is graduate of Watermeet high school, attended Marquette University law school, and received his post-graduate training at Chicago University law school in 1926. He was admitted to the Wisconsin bar in 1925, and to the Michigan bar in 1926.

He was elected to congress from the 12th district, which includes Baraga, Dickinson, Gogebic, Houghton, Iron, Keweenaw, Marquette and Ontonagon counties, in 1942, and was reelected in 1946. Besides engaging in the general practice of law in Ontonagon for 20 years, he served as prosecuting attorney of Ontonagon county as a deputy commissioner of the Michigan department of labor and industry for two years.

## Battle of Eagles Blacks Out Towns

Flagstaff, Ariz., June 9. (P)—A battle between two eagles plunged half a dozen small northern Arizona communities into darkness.

Arizona Power Co. linemen reported yesterday the eagles apparently had fought over the body of a young goat while perched on the cross arm of a pole carrying a 44,000-volt wire.

Charred bodies of the eagles and the goat were found at the foot of the pole in a tangle of wire, insulators and burned cross-arms. The towns were without electric power throughout the night.

## Ionia Warden Asked To Retire, Refuses

Lansing, June 9. (P)—Corrections Commissioner Joseph W. Sanford made it plain he was not pleased with the administration of Warden Joel R. Moore at Ionia state reformatory.

He flatly denied reports, however, that he was on the verge of dismissing the warden.

"I would like to see Moore retired," said Sanford, "he reaches compulsory retirement age July 2, 1949, and he could voluntarily retire now with very little if any financial loss."

The commissioner said he had suggested this course to Moore a month ago but that Moore had refused.

The commissioner said his chief complaint against Moore was that he had not kept up the "housekeeping" functions of the reformatory.

"The place is a mess," Sanford said. The commissioner added that Moore actively fights his orders for reforms in maintenance of the reformatory.

Moore, according to Sanford, joined Gerald P. Bush, who resigned as warden at Marquette branch prison last week, in lobbying against the Senate confirmation of Sanford's appointment last month.

## Socialist Predicts Republican Victory

East Lansing, June 9. (P)—"Short of a near-miracle, the Republican party will win the presidential election," Norman Thomas, perennial Socialist presidential candidate, told a Michigan State college group Tuesday.

Speaking under sponsorship of the college chapter of Students for Democratic Action, Thomas, heading the Socialist ticket for the sixth time, lambasted most of the prominent presidential hopefuls. He said neither the Republicans, Democrats nor Wallace's third party have a sound domestic or foreign program.

Thomas called President Truman "a man without a plan" and termed his western tour "a campaign trip paid for by the taxpayers."

**MOSCOW SWELTERS**

## Mrs. Sullivan, 70, Dies In Ann Arbor, Funeral On Friday

Mrs. Georgia Sullivan, 70, widow of Matt Sullivan, and a prominently known resident of Escanaba for many years, died this morning at 5 o'clock at St. Joseph's hospital in Ann Arbor. She had been making her home in the Lower Michigan city with her daughter, Mrs. Urban J. Farnsworth.

Mrs. Sullivan was born in Menominee April 1, 1878. She moved from Escanaba following the death of her husband but had returned here on numerous occasions to visit old family friends.

She was a member of St. Patrick's parish, of the G. I. A. to the B. of L. E. and the Degree of Honor.

Surviving are one daughter and two sons: Mrs. Farnsworth, the former Dorothy Sullivan; Matthew, of Marinette; and Ward, of Neenah, Wis.; three grandchildren and two brothers, William and Edward Parent, of Iron Mountain.

The body will be brought to Escanaba Thursday morning and will be in state at the Alto funeral home Thursday at 4 p. m. Services will be held Friday morning at 9 o'clock at St. Patrick's church. Rev. Fr. Martin B. Melican officiating, and burial will be in Holy Cross cemetery.

The Escanaba unit is Troop 453 sponsored by the Benevolent Protective Order of Elks, with John Cleary and Raymond Taylor as leaders, and the Manistique unit is Troop 462 sponsored by the Baptist Brotherhood of the First Baptist church with John Viergever and William H. Schobert as leaders.

Munising units are Troop 337 sponsored by the Knights of Columbus under Robert E. Oas and Ernest Johnson and Pack 332 sponsored by the First Presbyterian Church Men's club under Paul Simonen and Edmund Mitchell.

Other new units in the Upper Peninsula council are Troop 218 at Keweenaw Bay, Troop 315 at Republic, Troop 323 at Negaunee, Troop 248 at Hubbard, Troop 512 at Iron River, Troop 311 at Marquette and Pack 327 at Ishpeming.

## Freight Car Blaze Chased By Firemen

Decatur, Ill., June 9. (P)—Firemen spent ten minutes chasing a fire before they put it out last night. They made it on the fourth try.

The fire was in an empty freight car on an Illinois Central train. By the time the fire engine got to an intersection where the train had been, it had moved on.

The firemen backtracked a block, sped two blocks parallel to the tracks, and dashed down another side street to the railroad intersection.

By the time they got there, the burning car had passed that point. They made two more similar trips before they caught up with the fire.

The train's crew, meanwhile, knew of the blaze, but didn't know the fire engine was chasing the train. They had kept the train moving, looking for a side street with a fire hydrant.

The freight car's sides were burned up. The firemen were a little hot, too.

## One Cruise Ship Leaves; Second to Arrive Saturday

The Georgian Bay Transit line's S. S. South American cleared from Escanaba municipal dock at 10:45 a. m. today after stopping here for several hours on a Great Lakes cruise, and a second cruise ship, the D. & C.'s Eastern States will arrive Saturday, June 12, at 3 p. m.

The South American was the second cruise ship to visit Escanaba so far this season. This coming Saturday the Eastern States will stay at dock here until 11 p. m. at least.

Last scheduled passenger ship to dock here this season will be the Western States of the D. & C. line on Sunday, Sept. 5, from 8 to 11:30 p. m.

## FLOOD DROWNS PUGET ISLAND; DIKES WEAKEN

(Continued from Page One)

Damage in the millions—and growing daily. Days ago, qualified sources put the total at perhaps \$140,000,000 but thousands of acres in Oregon, Washington and British Columbia have gone under since then. Floodwaters now cover about 650 square miles in the U. S. sector alone—more than half the area of Rhode Island.

Eleven thousand men are fighting the battle on the American dike front. Thousands more are working in British Columbia. Their titanic task: hold the dikes already weakened by two flood crests until the third—now on the way—has passed.

**Third Crest Saturday**  
The third flood wave is rolling down the main valley of Columbia. It will hit the Portland-Vancouver, Wash. area in full force Saturday, cresting almost as high as the devastating first wave.

The breakthrough late last night at Puget Island was the second within 12 hours in the lower Columbia valley. An eight-foot wall of water cascaded through a gap 50 feet wide, flooding 2,670 acres of evacuated farmland. The water threatened to envelop a crossdike guarding 650 acres at the downstream end of the island across from Cathlamet, Wash.

## Retired Gen. Meyers Sued For \$250,000 By Woman In Case

New York, June 9. (P)—The former secretary of Bennett E. Meyers is suing the retired air force general for \$250,000, charging he made "false" and "defamatory" statements about her.

Mrs. Mildred R. Lamarre filed suit yesterday in Federal court. In an affidavit, she said Meyers imputed in statements before a Senate investigating committee that she was an "unchaste woman, unfaithful to her husband and her marriage vows."

Meyers, wartime air force procurement officer, is serving a prison term for inducing Mrs. Lamarre's husband, Bleriot H. Lamarre, to make false statements to the committee concerning Meyers' activities.

Lamarre served as president of the Aviation Electric Corp., of Vandalia, Ohio, which Meyers allegedly owned. Lamarre has been indicted for perjury.

Mrs. Lamarre, of Dayton, Ohio, said in her affidavit that Meyers told the Senate committee:

"I had an affair with this gal. It lasted for eight years. She was good looking at that time. I was intimate with her."

## Court Holds Eight For Gambling Ring Trial At Ypsilanti

Ypsilanti, Mich., June 9. (P)—Eight persons were bound over for circuit court trial on gambling conspiracy charges yesterday in connection with a reported "numbers" racket at the big Kaiser-Frazer plant at Willow Run.

Bound over for trial by Municipal Judge Mark R. Rust were: Horace Belev, 40, of Wayne, Paul Grant, 35, of Inkster, Willie Burl, 24, Casimir Stec, Mrs. Adele Gilmer, 41, John Albert, 39, all of Detroit, George Hubbard, 55, Willow Village, and George O'Neill, 22, of Ferndale.

Included in the testimony was a statement by Ed Tuzinowski, 37, Detroit, who said he met Stec in Detroit and arranged to sell tickets in the auto plant, then turned the money over to him at a tavern midway between here and Ann Arbor.

Nathaniel Price, 30, Detroit, Mrs. Gilmer and Albert had been named in a separate warrant and have demanded examination which is scheduled for Friday.

The group allegedly participated in a Detroit-operated ring which drew an estimated \$5,000 daily from the Kaiser-Frazer plant.

## Stock Prices Lift In Heavy Demand

New York, June 9. (P)—Heavy demand from all parts of the country lifted stock prices a few cents to around \$1 a share at a fast opening of the market today.

Blocks of 1,000 or more shares of stock, one of 10,000 shares, changed hands with unusual frequency.

Trading was so rapid that the high speed ticket tape fell behind in reporting transactions on the floor of the exchange.

**TENN-AGERS CAROUSE**  
Mt. Clemens (P)—A 38-year-old contractor was arrested after police said he played host to 30 or 40 teenaged boys and girls at a drinking party in his home.

## Camera News

ENJOYING her baby antics along with world events Susan Desfor, 7, turns another page in her "headline album." (Camera data: 4" x 5" speed graphic 7 feet from subject; 2 peanut flash bulbs—1 on camera, other on extension 5 feet at left.)

## By IRVING DESFOR AP Newsfeature Photo Art Director

Do you want a unique headline photo album? Well, that's exactly what you use—the front page headline of your daily newspaper. This paper, naturally, Pasted down in your album, it will date your family photo event in relation to what's going on around town or in the world. As time goes on it becomes more interesting, and more valuable, a point easily proved by a glance at my daughter's album, No. 1.

The headlines are from the memorable year 1941. Let's look at Dec. 8. The photo shows that at 7 months Susan faced a minor crisis with food—there was more on the outside of her face than inside. The photo, big black type on the opposite page noted an event that was going to change the food

habits of that little girl and of the nation: "CONGRESS VOTES WAR."

Today historical events are still being recorded on newspaper front pages. Select the ones you consider worth saving any time you take some current snapshots. Then they'll be handy when you get down to the job of working on the album.

As for the album, there are many shapes, sizes and kinds. My preference runs to the type with pages about 8½ inches by 11 inches. The pages are light colored, not black which makes it handy for writing dates, names or titles. (I haven't liked black pages for albums or scrapbooks, ever since I found it a nuisance to first get, then to write with white ink.) Another feature of the albums I have been using is that every other page is perforated and is torn out when you come to it. That makes up for the thickness of the print pasted down on the other pages, so the bulk of the final album is not much greater than when you start.

## TRUCE TAKES EFFECT FRIDAY IN HOLY LAND

(Continued from Page One)

which simmered down to yes. President Chaim Weizmann of Israel had indicated acceptance earlier. He told reporters in Paris "we are, in general, disposed to accept the truce."

Bernadotte is to announce the replies at 3 p. m. EST.

Bernadotte apparently had solved the differences between Jewish "assumptions" and Arab "explanations" in their original acceptance. The gulf was over immigration, besieged Jerusalem and a number of other points.

While achieving the armistice was a considerable coup for the Swedish Count and the U. N., a far greater task lies ahead. That is to solve the difficult variance of Jewish and Arab views. The Arabs have insisted right along that a truce is meaningless while Israel exists.

Weizmann said the little new country would yield none of its sovereignty. He spoke of accepting up to 1,250,000 more Jewish immigrants in the next 10 years.

He predicted British recognition within a month, and recognition by France and the Vatican before long. The United States, Russia and eight nations have recognized his state.

Foreign Secretary Ernest Bevin said, however, Britain is under no legal obligation to recognize Israel.

# Fr. Alban DeGroot Celebrates First Mass Here Sunday

Rev. Fr. Alban DeGroot, the son of Mr. and Mrs. Henry DeGroot of Northland, celebrated his first high mass, following ordination into the Catholic priesthood at St. Nazianz, seminary in Wisconsin, in St. Joseph church here Sunday at 9 a. m.

Father Cletus LaMere, S. D. S., a classmate of the newly ordained priest, served as deacon for the mass, and Rev. Eugene Rousseau, O. F. M., of Blanco, N. M., was sub-deacon. Rev. Fr. Alphons Wilberding, O. F. M., pastor of St. Joseph church, was assisting priest.

Rev. Fr. Francis Ginski of St. Michael parish in Perronville, home pastor of Fr. DeGroot, delivered the sermon. Rev. Julian Rousseau of Park View, N. M., was master of ceremonies during the high mass.

At 11:30 a banquet was served in the church basement, with Rev. Eugene Rousseau as toastmaster. Speakers for the banquet were Fathers Cletus LaMere, S. D. S., Francis Ginski, Alphons Wilberding, O. F. M., Julian Rousseau, O. F. M., and Father Alban DeGroot.

A reception was held in the church basement from 1 to 3 p. m., after which the newly ordained priest conducted benediction of the Blessed Sacrament. Dinner was served for 125 guests at the family home in Northland, and 250 guests were present for the church supper, served by the Altar society.

Music for the first mass of Father DeGroot was under the direction of Miss Eva Cossette, church organist. The Sing-

## By NEA Service

New York, (NEA)—Mix a few out-of-the-ordinary tricks in with your garden-plucked flowers, and turn a commonplace arrangement into an impressive display.

Here are the tricks. They come courtesy of experts of The Florist Telegraph Delivery Association, who demonstrated what they could do at the International Flower Show. Expert-stylist Irma Smith explains how easy it is for you to graduate from amateur to professional with a few simple tricks.

Take, first, those stiff-spined flowers—gladioli and calla lilies—which usually resist a woman's best efforts to "arrange." These, says Miss Smith, needn't stand as straight as pokers in tall vases. They can be put in low bowls; can be firmly anchored to pin-type flower holders.

To arch stems and make flowers sway out gracefully from a low bowl, rub the stalk gently. Allow the warmth and pull of your hand to soften up the juicy stems where you want it to bend. To keep these "centerpiece" beauties from obstructing the view of your dining guests, cut stems in graduated lengths.

Moreover, top-heavy blossoms like these and others that you stick in flower holders won't topple over to bruise their heads and spill water on furniture if you'll use a stabilizing trick which florists use. That's to daub soft modeling clay over the base and around the edge of the flower holder, letting it serve as a "stickum" that temporarily seals flower holder to the flattest plate or shallowest bowl.

Here's another trick explained by Miss Smith for keeping heavy or bulky flowers in their arranged place. Crumple up large-meshed chicken wire, push it into the vase and thread the posy stems through it.

A special occasion decoration created by flower experts for a silver wedding anniversary offers another lesson in professional know-how. Using birch twigs, sprayed white and placed in an ordinary china bowl, covered with silver paper, decorate with silver bells and white gardenias. Attach by wiring to the twigs at varying heights. Violets and more gardenias may be banked at the base to hide the flower holder.

As Miss Smith points out, this arrangement could be duplicated

using other kinds of white flowers—carnations for example. Flowers can later be unwired and presented to the guests as corsages, she suggests.

More tips from Miss Smith suggest ways to lengthen the life of cut flowers. An orchid bought for a special occasion can be preserved for a second or third wearing, if you'll take the ribbon off, turn the blossom upside down and let the petals rest in a small saucer of water overnight in the icebox.

Salvage full-blown roses from premature discard, says Miss Smith, by nipping off the stems at the base of the bloom and floating the blossoms in a shallow bowl of water.

Tightly closed tulip buds should be opened for decorative purposes—an arrangement that mixes buds and open flowers is prettier, says the stylist, than an all-bud bouquet. To open the bud, put your thumb under a petal and curl each petal back gently over the forefinger.

In 1947, the New York police department issued 228,927 warnings and recorded 51,372 arrests and summonses against people making too much noise.

Mary F. Novey,  
Raymond Meyers  
Wed At Alpha

Miss Mary Frances Novey, daughter of Mrs. Sophia Novey, of Alpha, Mich., and Raymond Walter Meyers, of Bark River, son of Mrs. Mary Meyers, were married at St. Edwards church in Alpha Saturday morning, June 5, at 9 o'clock by Rev. Fr. Joseph A. Gondek.

Mrs. A. LaCount was organist of the service and Charles Dora sang the "Ave Maria" at the offertory. Lilacs, apple blossoms and bridal wreath were the altar decorations.

The bride wore white slipper satin, the gown styled with a sweetheart neckline, tapering sleeves and a long train, and a fingertip veil and she carried a white shower bouquet. The attendants wore like gowns of marquisette over satin, made with Peter Pan collars, and hoop skirts. The maid of honor's gown was yellow and the bridesmaids, pink and blue. They carried colonial bouquets.

The bride's mother wore tan gabardine with black accessories and the bridegroom's mother black flowered crepe with white accessories. Both mothers had pink and white carnation corsages. A wedding breakfast followed by a reception for 120 guests was served at the home of Mrs. Sophie Novey at Buck Lake. A three-tiered cake decorated with yellow roses and green leaves centered the table.

The couple after a wedding trip to the east coast will live in Bark River. Both young people formerly were employed by the Sunbeam

**CHIEF SCOUT** — Arthur A. Schuck is the new Chief Scout Executive of the Boy Scout Organization. An expert on organizing and financing social service organizations, he has been Scout Executive of the Los Angeles Area Council.

**SWEDISH PRINCE** — Heritier Carl-Gustaf of Sweden is a royal prince, but he gets just as much kick out of riding his bike as any two-year-old. The prince, whose father was killed in an air crash last year, rides in the Haga Castle grounds in a Stockholm suburb.

**TO TRIESTE** — Maj.-Gen. William M. Hoge, above, has been named to take command of American troops in the Trieste area. Hoge, now commander of the Engineer School at Fort Belvoir, Va., will succeed Maj.-Gen. Bryant E. Moore in June.

**JUNIOR GLAMOR** — Posing primly by a Daytona Beach, Fla., pool, little Celeste Young puts the older bathing beauties to shame. The 1½-year-old miss shows 'em that glamor comes in small packages.

**MAE'S BACK!** — Back from a nine-month trip to England, during which she said she gained five pounds on Britain's "austerity" diet, is Mae West. The "come-uppance-me-time" actress, arriving in New York, said British men reacted "very good" to her performances in "Diamond Lil."

**NEW AMERICAN** — Bernhard Lubisch, 14, is the first German national to be admitted to the U. S. for rehabilitation purposes. The youngster will live with John B. Crane, in Alexandria, Va.

**WALKIE TALKIE** — Not every girl is as lucky as Jacqueline Boyer, who struts the deck of the cruise ship Andes with a life-size, walking and talking doll. Jacqueline and her parents returned to their home in Southampton, England, from a trip to Buenos Aires.

**HE'S 'BIG ENOUGH'** — The name of this little doggie is, appropriately, Incomparable Big Enough. A St. Bernard, the mighty canine dwarfs his playmate, Michael Stearns. Incomparable Big Enough was entered in the Los Angeles National Kennel Club Dog Show.

**HER ART IS GRADE A** — Cynthia Newmark, of Dorchester, Mass., shows her latest creation. It's a painstaking replica of the ancient Greek vase seen in background, which Cynthia copied on an ordinary milk bottle. The original vase is in the Boston Museum of Fine Arts.

**JAPAN'S WHIZ KID** — Around the grounds of the Imperial Palace in Tokyo, they call Prince Akihito "The Whizzer." The young prince whizzes along on his motor scooter, presented to him at the Festival.

- (Additional classes will be added if interest warrants.)
- RULES**
- The Contest is open to everybody, men, women and children. Contest opens with the legal fishing season and closes on Labor Day. Envelopes containing entries must bear a postmark not later than September 6, 1948, to be eligible.
  - All fish entered in the contest must be caught in public waters of Upper Michigan during the open season in the respective fish class.
  - Contest is limited to fish taken with hook and line. Any legal lure may be used. Lake trout must be caught on a rod or line freely held in the hand and not attached to a boat.
  - All information asked for on the entry blank should be supplied. Failure to give length and girth may disqualify entries. Fish must be weighed on tested scales and measured with a steel tape measure, the length taken from the end of the lower jaw with the mouth closed to the tip of the tail, and the greatest girth of the fish taken. Weight may be given rounded or in the round or both.
  - In the walleye pike and black bass classes a photograph is desirable to be sure of identity of the species.
  - In the event of two or more fish weighing and measuring exactly the same, identical trophies will be awarded. Greatest measurements will decide the winner. When weights are approximately equal.
  - Accompany your entry with a photograph of yourself or the fish or both together with a brief story of how, where and when the fish was caught. A photograph is not essential to win an award but it is desirable.
  - The entry blank, printed above, or an exact copy must be used. It must be signed by the person catching the fish and by two witnesses who examined the fish and verified its weight and measurements. The contestant agrees, if requested to do so by the judges, to furnish an affidavit attesting to the truth of all statements made in the entry.
  - Contestants may make as many entries in all classes as they wish.
- PRIZE AWARDS**
- In each of the classes the angler entering the fish which is adjudged to be the largest in its class will receive a trophy in recognition of his or her accomplishment.
- Additional blanks may be had free of charge by addressing Outdoors Editor, Escanaba Daily Press, Escanaba, Michigan.

Rialto Bldg.Harbin Writes  
For Magazine

When a local man writes a feature article and that article is accepted for publication in a magazine of nationwide circulation, it's news.

Noel L. Harbin, proprietor of the Camera Shop in Manistique, did just that and his article "A Flick of the Flint," appears in the July issue of "Munichian Photography," a magazine devoted to amateur and professional photography.

Mr. Harbin's article is explained by the sub heading, "Try your cigarette lighter as a portable flash." It deals with results Harbin had taking flash pictures from the light of the sparks of his cigarette lighter. In it he tells of experiments he made in his dark-room using nothing but the flint as a light medium.

A picture taken in this manner accompanies the article.

Commenting on the article and on the results obtained, Harbin states "of course, this method will never replace the flashlight, but it is remarkable how much light one of these little flints can produce." Results are only possible in closeup photography.

**SCHOOL JUST ABOUT OVER**

All That Remain Are The Formalities

Manistique public schools, of all intents and purposes, are now closed. All that remain are the formalities incidental to "last day of school."

In the high school, examinations were completed Tuesday, today has been taken up with conferences with teachers concerning standings, advancements, and the turning in of books and equipment. Thursday afternoon will be devoted to annual class day activities, when honor students of the senior class will present the valedictory, salutatory, class history, prophecy and other matters which make the occasion so memorable.

In the grade schools, work done by the pupils will be on display in the various schools. Wednesday afternoon children of Lakeside and Central schools held their annual picnic at Indian Lake State Park. Lincoln school children will have their picnic at the same place Thursday afternoon.

Following is the Class day program schedule for Thursday afternoon at 2:30 o'clock.

Processional "Triumphal March from Aida," G. Verdi. High School Band.

Concert by Band, "El Capitan" Sousa, "Eleanor" Deppen, "Marie" Berlin.

Salutatory, Ruth Martinson.

Class History, Betty Tebo and Phyllis Toiva.

Mrs. C. Touhy  
And Alva Byers, Sr.  
Exchange Vows

On Sunday, June 6, at 2 p. m. the Byers' residence at Hiawatha was the scene of a quiet wedding when A. L. Byers, sr., was united in marriage to Mrs. Catherine Touhy of Detroit.

The bride wore royal blue silk jersey with white accessories and was attended by Mrs. A. L. Byers, jr., who wore pale yellow with black accessories and a black picture hat. William Byers of Auburn attended his father as best man.

As the bridal march was played by Rev. Violet Byers, the wedding party formed under an archway of lilacs, and Judge W. G. Stephens read the ring ceremony, while "Loves Old Sweet Song" and "I Love You Truly" were played softly.

Following the ceremony, Rev. and Mrs. Niles Byers, sang several selections, and before lunch was served, the guests joined in the singing, at the close of which Rev. Byers' oldest son, the bridegroom, offered a prayer.

Guests at the wedding included Mr. and Mrs. L. Byers and son, Wayne; Mr. and Mrs. Russell Ruggles and family; and Rev. and Mrs. Niles Byers and family of Hiawatha; Mrs. A. L. Byers, jr., and two children, Mrs. Margaret Needham, Misses Lola Mae and Donna Jean Bashore, Mr. and Mrs. J. R. Lowell and Judge W. G. Stephens of Manistique; and Mrs. Gilbert Hyland and daughter Shirley Ann of Muskegon.

Miss Elva Reid  
Becomes Bride Of  
Howard Carlson

Miss Elva Reid, 133 North Second street, and Russell Howard Carlson, 715 Manistique avenue, son of Mr. and Mrs. Victor Carlson, were united in marriage at a ceremony performed Saturday, June 5 at 4 p. m. in the Zion Lutheran church, the Rev. Clifford Peterson of Gladstone officiating.

Attendants were Mrs. Bernard Cook, sister of the bride, and Eugene Carlson, brother of the bridegroom.

The bride was attired in a gray and white two-piece crepe street length dress with white accessories. Her corsage was of sweet peas and roses. Mrs. Cook wore a heliotrope dress with white accessories and a corsage similar to the brides.

Mrs. Carlson, mother of the bridegroom, chose a brown bengal print with brown and white accessories and a corsage of roses and sweet peas.

A wedding dinner and reception for seventy five guests, was held following the ceremony at the home of the bridegroom's parents. The dinner table was beautifully decorated with crystal, bowls of roses, and the 3-tiered wedding cake topped with a miniature bride and groom.

Following a wedding trip to Chicago, the couple will make their home at Indian Lake.

The bride is a graduate of Manistique high school and is employed as cashier for the telephone company. The bridegroom attended local schools and is employed by the Manistique Garage.

Out-of-town guests at the wedding were Mr. and Mrs. Bernard Cook of L'Anse, Mr. and Mrs. Charles Karlson of Saginaw, Mr. and Mrs. Peter Eckenberg of Escanaba, and Mr. and Mrs. Art Marks of Newberry.

**Myrtle, the Turtle**  
25,000,000 Years Old

By SCIENCE SERVICE

Berkeley, Calif.—A giant fossil turtle, with a shell seven feet long and four and one-half feet wide, has been found by the University of California African Expedition. With more rhyme than reason, it has been nicknamed "Myrtle."

The dry land where Myrtle was dug out from between two layers of lava flows represents the bottom of a lake that was there about 25,000,000 years ago. Volcanic activity was frequent at that time, scientists of the expedition say, so life must have been precarious for Myrtle and her hard-shelled sisters.

Zale 8 Years Older Than Rocky; That's The Ticket For Tonight

Newark, N. J., June 9 (AP)—The noisy, extroverted, Rocky Graziano, meets stolid Tony Zale in the rubber match of their violent ring series. At stake this time is Rocky's world middleweight championship, won from Zale July 16, 1947, in Chicago. In the first fight, Sept. 27, 1946 in New York's Yankee stadium, Zale was victor by a knockout.

Hogan Favored As U. S. Open Begins Tomorrow

Los Angeles, June 9 (AP)—The greatest golfing show on earth, the U. S. Open, gets under way tomorrow on the long, tough Riviera course. It is the most coveted title for all the links domain, bringing together America's finest professionals and amateurs. The field that starts the grueling 72-hole trek, ending Saturday, will be one of the best.

Middleweight Bouts Always Full Of Fire

By Hugh Fullerton, Jr.

New York, June 9 (AP)—There must be something special about a middleweight championship fight that makes it end in a knockout, an argument or both. And there's no reason to believe that tonight's third slugfest between Rocky Graziano and Tony Zale will vary the pattern. Let's go clear back to 1894 when Jack Dempsey, the Nonpareil, won general recognition as middleweight champ by knocking out a guy named George Fullam in 22 rounds. The original Jack had one fight against Johnny Reagan, for instance, when the ring was submerged by water after four rounds. They moved 20 miles away and finished a four-hour, 45 round battle in snow and cold with Dempsey winning by a knockout. Then Dempsey was stiffened by George LaBlanche in 32 rounds but retained his title because LaBlanche used a "pivot" blow which subsequently was declared illegal—and anyway George was overweight. The Nonpareil finally lost his title to Bob Fitzsimmons on a knockout.

Rhubarb Patch Ruby Roubert outwore the class but he continued to claim the middleweight title until he won the heavyweight crown in 1907. Tommy Ryan outlasted a horde of other title claimants and retired in 1907. About that time an amazing kid named Stanley Ketchel came out of Montana's mining country to earn the championship. Off the records and the memories of old-timers, there hasn't been a knock-out since him before or since that time. Still Stan's slugfests with Billy Panke can be bracketed with the Zale-Graziano series for excitement and uncertainty. Later there were such guys as Johnny Wilson, who got into a celebrated rhubarb in 1921 when the Cleveland Boxing Commission tried to reverse the decision of one of its own referees, Harry Greb and Mickey Walker. After Walker retired there was a long stretch when rival boxing bodies recognized different boxers as champion, but Zale finally got them into agreement in 1941. And—well you must have heard about those first two Zale-Graziano clouting contests and the assorted troubles Rocky has experienced.

Cleaning The Cuff A half hour after Billy Thompson and Eric Boon, British boxers, disembarked from the Queen Mary the other day, they were sighted going up Eighth Ave. asking the way to Stillman's gym. Jack Weisenburger, Michigan's football and baseball stand-out, is flirting with a Chicago White Sox contract. Walt Vezmar, 235-pound Detroit Lions guard, is an accomplished tap dancer. But can he play taps for the opposition?

By Joe Reichler

Associated Press Sports Writer A "throw-in" in a deal between the New York Yankees and Cleveland Indians two years ago, Gene Bearden, loomed today as the key player in the Indians' American league pennant chances.

The wavy-haired southpaw came along as excess baggage when the Tribe acquired Allen Gettel and Hal Peck in a trade that sent Sherman Lollar and Ray Mack to the Yankees. He has proved to be the best pick-up the Indians have made since they plucked Bob Feller from the Iowa sandlots.

In fact, the 27-year-old rookie thus far has outshone the great Feller on the mound and currently rivals Bob Lemon as the No. 1 hurler on the staff.

The Los Angeles knuckleballer gained his sixth victory last night when he pitched the Indians to a 2-0 triumph over the Red Sox in Boston. The victory increased the Indians' first place lead over the Athletics and Yankees to three and a half games.

The Yankees moved into a second place tie with the Athletics, coming from behind to edge out the Chicago White Sox 3-2 in a 12-inning night battle at Yankee stadium. The Detroit Tigers nipped the A's 2-1 in another close one at Philadelphia.

Bobby Brown drove in the winning run for the Yankees with a two-out single in the 12th.

Naps Nip Browns Hal Newhouse continued to climb back by holding the Athletics to seven hits. It was his fifth straight victory after four consecutive defeats.

The Senators came from behind three times to tie the score then tallied twice in the seventh to nip the St. Louis Browns 6-5 in a night game in Washington. Carlen Gilenwater and Mark Christman, with two hits each, led the Nats' 12-hit attack against loser Bryan Stephens and Clem Dreisewer.

The St. Louis Cardinals advanced to within four percentage points of the National league leading New York Giants by defeating the Philadelphia Phillies 7-5 in a night game in St. Louis. Harry (the Cat) Brecheen gained his sixth victory against one defeat, but Ted Wilks saved the game for him with some brilliant relief pitching.

Cubs Lose Again Scoring six runs in the first two innings, the Brooklyn Dodgers staved off a couple of desperate Cincinnati rallies to nip the Reds 6-5 in Cincinnati. Willard Ramsdell, relieving starter Ralph Branca in the third, allowed only two hits in six and one third inning.

Young Vernon Bickford gave up only four hits in pitching the Boston Braves to an 11-1 victory over Johnny Schmitz and the Cubs in Chicago. It was the Cubs seventh straight loss. Phil Masi and Tommy Holmes each collected three hits.

The scheduled night game between the Giants and Pirates in Pittsburgh was postponed by rain.

Rainbow Loop Nines Invited To Compete In Semi-Pro Meet

Rainbow league teams have been invited to participate in the first annual U. P. semi-pro baseball tournament which will open under the lights of Kingsford field here July 7.

The tournament, a new wrinkle in U. P. baseball and the only one of its kind to be staged north of Milwaukee, is being sponsored by Janes Mancie, Iron Mountain promoter.

Deadline for entry is June 25 and invitations are being mailed this week to teams in the U. P. and several in the northern Wisconsin area. A 32 team bracket is the maximum number of teams which will participate.

SOFTBALL

VFW TRIUMPH Will Derusha's home run blow in the sixth inning provided the winning margin in VFW's 4-3 triumph over Saykly's in a city softball league tilt yesterday. VFW made 10 hits and committed two errors. Saykly's collected five hits and was guilty of one misplay. Batteries: Saykly's—Baker and Laviolette; VFW—Charles Weber and Ray Moran.

MERCHANTS WIN The Merchants defeated White Birch, 7-6, yesterday. Batteries: Merchants—Larson and Paquette; White Birch—Lancour and Lancour.

Yale Enters East NCC Baseball Meet

East Lansing, June 9 (AP)—Selection of Yale university as the district one representative in the eastern playoffs of the NCC baseball "Little World Series" has been announced by John H. ESCANABA DAILY PRESS SPORTS "It Seems To Me" BY JIM WARD

A bangup baseball doubleheader is being arranged for the diamond partisans at the city field here next Sunday afternoon.

Whether it was prearranged or not is a moot question, but at any rate Pete Derwin's Escanaba Bears are slated to play Chatham in a Rainbow Baseball league battle here next Sunday, and waddy know — Al Ness' Escanaba Cubs are slated to play Chatham in a Tri County Junior Baseball league tilt here next Sunday also.

So, it was very simple. Pete and Al merely got their heads together and began to talk about plans for a big doubleheader at the city diamond. Chatham day!

If plans materialize and at this writing nothing seems to stand in the way, this attraction will give Escanaba fans the opportunity to see both the Bears and Cubs in action in one afternoon.

The Bears drew a sizeable crowd last Sunday when they played little Diorite. That was surprising, but the Bears are undefeated and the prospect of a duel between Jack Beck and Diorite's heralded Bob Laakso drew the faithful in good numbers—local baseball attendance being what it is.

Chatham got into the thick of the Rainbow fight with a 9-7 win over Gwinn last Sunday, and you will recall that Gwinn gave the Bears more than a little worry two weeks ago. So it should be a fair battle.

Al Ness' aggregation opened auspiciously with a 9-3 triumph over Gladstone last Sunday. And next Sunday's appearance against Chatham will be its first home game of the season.

All in all, it should be a good show.

Newhouser Proves He's Okeh By Beating A's For Fifth Straight

Philadelphia, June 9 (AP)—Any talk that Hal Newhouser, southpaw ace of the Detroit Tigers' pitching staff, had lost his stuff was strictly premature.

Just a month ago Hal was groveling in a four-game losing streak and all but his staunchest fans were asking "what's wrong with Newhouser?"

The blond lefty insisted nothing was wrong and he's doing a pretty fair job of proving it.

When Newhouser stopped the Philadelphia Athletics with seven hits last night to top Leeland Brissie 2 to 1 in a hot pitching duel it was Hal's fifth straight victory.

Hal Newhouser He hasn't been beaten in a month.

The Tigers cracked a three-game losing streak by taking the arclight opener of a three-game series with the A's, who now have lost four in a row in their tumble from first place.

A crowd of 18,801 fans saw Brissie fan eight men keeping pace with Newhouser's seven-hit hurling, but he walked three and it was one of the passes that beat him.

Wakefield Scores Detroit utilized two of the walks to score both its runs in the sixth. Eddie Lake playing second in place of Eddie Mayo, opened the inning by beating out a drag bunt for a single. George Kell sacrificed him to second and Dick Wakefield, back in left field for Vic Wertz, walked. Hoot Evers then delivered his third hit of the game, scoring Lake and putting Wakefield on third.

Pat Mullin walked to fill the bases and Wakefield sped home from third with the winning run after Sam Chapman caught George Vico's long fly in center. It was significant that the Tigers, who haven't been able to produce the long fly to bring runners home from third, won this one just that way.

The two-run rally brought Detroit from behind after the A's had broken a brilliant scoreless mound duel with a run in the fifth.

Dizzy Trout Tonight New house fanned four men and walked three achieving his sixth victory of the season against four losses.

In the month of his five-game winning streak Hal has given only 36 hits and 10 runs in 49 innings. Two of the wins were in 11-inning games.

Detroit and Philadelphia come right back tonight for another after-dark encounter matching Dizzy Trout of the Tigers against Carl Scheib of the A's on the mound.

The Tigers now have won six of their last 15 games and the entire half dozen wins have been divided between Newhouser and Trout.

FIVE STRAIGHT: FLINT

By the Associated Press Effective pitching and heavy clouting where it was needed kept the Flint Arrows riding a five-game winning streak today (Wednesday) atop the Central league. Young Jerry Ahrens allowed the Saginaw Bears only six hits in 11 innings last night, and George Lerchen came through with a mighty homer over the center-field wall in the 11th to give the Arrows a 2 to 1 victory.

RHUBARB—Coach Travis Jackson of the Giants restrains Buddy Kerr at Ebbets Field in a protest to umpire Babe Pinelli that went to National League president Ford Frick. Continuing in the angry short-stop's behalf are Mel Ott and Coach Red Kress, right. Ott filed objections on the same point for the second time in five days. Pinelli both times ruling full possession of the ball by an infielder on a forced play. On this occasion, Kerr and Ott contend second baseman Eddie Miksis of the Dodgers juggled the ball in the 11th, after which the game was called with score, 4-4, to enable the clubs to catch trains.

Baseball Stars Of Yesterday

Batting—Bobby Brown, Yankees—spanked a single with two out in the bottom half of the 12th to score Larry Berra from second and give the Yankees a 3-2 victory over the Chicago White Sox. Pitching—Gene Bearden, Indians—scattered five Boston hits in pitching Cleveland to a 2-0 victory.

## Residents Here To Get Preview Of Railway Fair

The Chicago and North Western Railway's Centennial Train scheduled to visit here on June 15 will give residents of this area a preview of the Chicago Railroad Fair this summer, which is described by its producers as "the largest outdoor exposition in the Midwest since the Century of Progress in Chicago in 1933."

The train will carry a star performer in this huge lake front fair—the "Pioneer" locomotive, first to operate from Chicago, whose initial run 100 years ago forms the occasion for the event.

Most of the nation's major railroads will take part in the Chicago exposition, which is expected to attract more than 2,000,000 persons. It is scheduled to begin the middle of July.

### Many Transport Exhibits

There will be scores of exhibits, portraying 100 years of railroad progress, and premiering plans for future improvements.

Major Lenox R. Lohr, who was executive head of the Century of Progress, and who will be in direct charge of staging the fair, says that museum pieces along with equipment showing the latest in traveling comfort and safety will be exhibited. One railroad plans to reproduce an entire Indian village, and another will build a miniature Sun Valley.

It will take nearly \$2,000,000 to produce the show, and Major Lohr expects nearly all of the railroads in the United States to participate.

The pageant will be staged along one mile of lake front between the Outer Drive and Lake Michigan, from 23rd to 29th streets. A 5,000-seat grandstand and a stage 450 feet wide are planned.

Railroad officials serving with the non-profit corporation formed to produce the pageant include R. L. Williams, president of the North Western; Charles Buford, president of the Milwaukee Road, and Ralph Budd, president of the Burlington.

### "Pioneer" Locomotive

The "Pioneer," first locomotive of the Galena & Chicago Union Railroad Company, nucleus of the North Western, promises to be one of the most interesting of the many exhibits planned.

This engine puffed its way five miles west of Chicago, and back, on Oct. 25, 1848, on its initial run. This first taste of railroading for Chicago and the Midwest will be commemorated by the railroad fair.

The "Pioneer" recently was reconditioned in the North Western's shops. The original tender and passenger coach it pulled were re-constructed by the railroad as exhibits for the fair and the centennial tour of eight states.

The railroad and the Midwest grew up together, according to the North Western's president. When the old Galena extended its lines it brought men and materials to the verdant prairies, dense forests, and rich mines. Manufacturing and mining communities mushroomed along the railroad's tracks, and farmers laid out their acreages near the new, fast transportation.

The North Western will set up displays at the railroad fair to show how the system accumulated a long list of railroading "firsts." Among these are the first railway telegraph system west of Chicago, dining cars all the way from Chicago to San Francisco, and Mars' oscillating safety headlights.

## Salesman Released In Bride Kidnaping; Says He Loves Girl

Wichita, Kas., (AP)—A 17-year-old girl taken into custody Sunday with a married salesman, was released by police Tuesday.

The girl, Mrs. Mary Kalnoski, was released upon arrival of her mother and brother, who flew here from their York, Pa., home.

Mrs. Kalnoski, a bride of less than two months, and Arthur Deets, Jr., 23, of Kingston, Pa., were taken into custody Sunday. Police said they ran away May 23 shortly before the girl's high school graduation.

Kidnaping charges were filed against Deets after the girl's husband, Thomas T. Kalnoski, 25, of New Britain, Conn., was located.

Police quoted Mrs. Kalnoski as saying she accompanied Deets willingly, however, and his release was authorized yesterday by the District Attorney at York. Police here said they were informed the charges would not be pressed "at this time."

"We know we love each other," Deets said shortly after his arrest.

## Mother of Castoff Curly-Haired Baby Found In Detroit

Detroit, Mich., (AP)—Still homeless but no longer a lady of mystery, little curly-haired "Miss Gadget" remained in the care of receiving hospital attendants Tuesday.

The two-year-old's mother, who gave her name as Eva Simons and said her daughter was called Dolores, was located Monday by police. Officers had been searching for her since the little girl was left in a taxi cab Saturday.

The mother, 24, admitted leaving her child there "because she was hungry and I couldn't afford to take care of her."

"I haven't any place to leave her so I can work, and I have no money. I knew if I left her in a taxi she would be turned over to police."

The young mother was charged with abandonment.

**INTERESTING EXHIBITS**—Old telegraph keys and typewriters used years ago by the Chicago and North Western Railway interest Frank Jornd and his sons, Eugene, aged five, and Merle, aged four, as they tour the railroad's Museum Car during its stop in Rockford, Ill. The Museum Car is one feature of the North Western's Centennial Train on a two-month tour of 58 cities served by Chicago's pioneer railroad. The star of the traveling exhibition is the original "Pioneer" locomotive which made its initial trial run Oct. 25, 1848. The "Pioneer" will be a star attraction at Escanaba on Tuesday, June 15.

## Escanaba Teachers On Vacation Too

Formal closing of the school year last Friday marked the beginning of summer vacations for the faculty members of the schools in Escanaba. Some have left, others will leave shortly.

### Schaffer

Schaffer, Mich.—Theresa Seymour returned home Monday following a four day visit in Milwaukee.

Ronald Lee LaMarche, two year old son of Mr. and Mrs. Clarence LaMarche was taken to St. Luke's hospital in Marquette for treatment.

Wilbert Chailier of Detroit is spending a week with his parents, Mr. and Mrs. Joseph Chenier and also with Mr. and Mrs. Alex Young.

Janet Milligan of Foster City spent Sunday afternoon with her aunt, Mrs. G. Auger.

Mr. and Mrs. Ray Magnuson and children of Washington are spending a vacation at the Henry Nelson home and also visiting other relatives and friends.

Mr. and Mrs. Arthur Poquette and children of Hermansville visited at the Stanley McInnis home Sunday.

Dinner and supper guests at Mrs. A. Taylor Monday were Rev. Frs. Eugene and Julian Rousseau from New Mexico, Mrs. A. Rousseau, Arthur, and Gertrude from Detroit, Mrs. Herman Erickson, Mrs. Elizabeth Reidy, and Joan DeGrand from Escanaba. They also visited at the Eli Taylor home in the afternoon.

## ROCKFORD MEN WILL FLY HERE

Hillman And Nelson To Attend Festival

Two officers of the Rockford, Ill., Swedish Pioneer Centennial committee will fly to Escanaba on Tuesday, June 15, to attend the all-Upper Peninsula celebration, at which Prince Bertil of Sweden will be a special guest.

They are: Swan Hillman, chairman of the Rockford committee and general manager of the Rockford Screw Products company; and Herman G. Nelson, former Escanaban, now with the Rockford Star-Republic and vice chairman of the Swedish Pioneer Centennial commission of Illinois.

They will arrive Tuesday morning in the Rockford Screw Products company's Beechcraft two-motor eight-passenger plane. The Rockford men will be accompanied by their wives, and Nelson's two daughters, Ruth Mae, 16, and Margaret, 14. The party will fly back to Rockford that evening, after attending the afternoon program at the U. P. State Fairgrounds.

Nelson, who worked as a reporter with the Escanaba Daily Press about twenty years ago, has been prominent in Swedish organization activities in Rockford. Last spring, he flew to Sweden to invite Prince Bertil to attend the Swedish Midwest Pioneer Centennial celebrations. He writes for the Swedish-American Month-

## Czechs Choose New President Monday To Succeed Benes

Prague, Czechoslovakia, (AP)—Czechoslovakia's Communist-bossed parliament will elect a new president next Monday, to succeed Eduard Benes, resigned.

Communist Premier Klement Gottwald is regarded as the leading candidate for the job, with Antonin Zapotocky, deputy premier and trades union head, then succeeding Gottwald as premier.

There was talk, however, that Gottwald might wish to remain premier, a post he has held since July 3, 1946. In that case Zdenek Nejedly, 70, the education minister, or Zdenek Fierlinger, the minister of industry, were given the best chance for the presidency.

Benes, Czechoslovakia's second president, quit yesterday, after serving 11 years, rather than sign a new constitution drawn up by the Communist regime which captured the nation last February.

He had been voted a life term in 1946 and Gottwald's office announced that as a tribute for his long service to the nation Benes would be given the presidential country home and paid his presidential salary for the remainder of his life. He is 64 and attributed his resignation, in part, to ill health.

Nelson is the tour manager for the Sofiaflackorna troupe of Stockholm, who will appear at the Escanaba celebration.

## From where I sit... by Joe Marsh

### Who is this Man?

Now and then, in the pages of the *Clarion*, I run a biographical quiz, under the heading of "Who Is This Man?" For instance . . .

"He was one of the earliest lovers in American history . . ."

"And yet he was too shy to court a woman outright . . ."

"He came to the New World on the Mayflower . . ."

"A cooper to repair the beer barrels accompanying the Pilgrims . . ."

"Who is this man?"

I thought that everybody was

stumped. But not Ma Hoskins, who returned the clipping to me with "John Alden" on it. She recognized all the clues—including that reference to "beer" and "cooper."

For Ma—who's read her history, knows that beer as the beverage of moderation, is as old in this land of ours as the never-ending American search for tolerance which brought the Pilgrims over to this country in the first place.

Joe Marsh
